

## SHIPS Assessment of the Qualifying Paper for the Sixth-Quarter Review

---

**Review Date:** \_\_\_\_\_

**Student Name:** \_\_\_\_\_

For purposes of evaluation, use the following rating scale.

Given this stage in the student's graduate career, I judge this paper to be:

1. Acceptable. Revisions are not required and the student may officially advance to candidacy.
2. Acceptable with revisions. The QP should be rewritten to respond to the QP committee's comments, and the rewrite will be reviewed by the committee.
3. Unacceptable. A new QP should be submitted to the QP committee by the end of the next regular academic quarter following the submission of the original QP (the new submission will therefore generally take place at the end of the seventh quarter of residence).

**(Please provide comments above to substantiate your evaluation  
and to guide the student in preparing a revision if needed.)**
