Course Overview

Welcome to the third and final course in a three-part sequence on teaching English Language Arts in secondary schools. These three courses focus on reading comprehension for students as they learn to read and interpret both fiction and non-fiction texts and communicate their ideas in discussion, writing, and other media in order to better understand texts, themselves, and the world.

Our ultimate goal is to help you learn to build on the resources your students bring to the classroom and design lessons and units that will help your students become independent readers and writers who can fully engage the world of texts that surrounds them.

In the Winter course, we will focus on designing a conceptual unit plan using the tenets of backward design and constructivism.

Course Goals

By the end of the course, you will:

- Interrogate and expand your knowledge, beliefs, and assumptions about ELA, specifically around text choices, essential questions, and assessments
- Practice flexible strategies that you can adapt for a variety of lessons; incorporate some of these strategies into your planning
- Rehearse lessons to hone your instructional practice and engage in feedback and revision with your peers
- Engage in social and emotional learning (SEL) practices to build classroom community; consider how you might incorporate these practices into your own teaching
- Design a conceptual unit plan based on an anchor text that
 - helps students learn transferable skills and/or explores a particular concept
 - makes visible and builds on students' everyday interpretive skills and practices
 - is equitable and culturally sustaining for your students

Final Assignment

Your final assignment will take up some of these learning goals in the form of a conceptual unit plan of about 4-5 weeks. The instructors will model the unit design process in class, and you will draft part of your unit plan for homework each week. Detailed instructions for this assignment will be distributed and discussed in Week 1.

Course Expectations

In the final course of our C&I sequence, we hope to continue to build a collegial culture in which we can learn from one another.

To facilitate this culture, we will:

- Strive to be well prepared, responsive, and reflective teachers
- Build criteria based on our knowledge as well as your ideas, questions, and requests
- Respond to your work and emails/phone calls in a timely way
- Help build connections between your learning at Stanford and at your placement

We expect that you will:

- Attend class every week and arrive on time
- Be open-minded to new ideas and practices
- Closely read and annotate class articles
- Engage in rigorous, open-minded, and respectful class participation
- Share all assignments with us on time and complete all parts of the assignments
- Communicate with both instructors via email if you need additional support or an extension

Grading

Because we believe you can and will do these things, we expect every student in this class will earn an A. Our primary goal in responding to your assignments is to provide feedback and engage in conversation about the work you have done. Thus, we will provide comments but not a letter or numerical grade on your assignments. Instead, along with comments, you will see either a “complete” or “incomplete” on your work. A “complete” means that you have met the goals for that assignment and are ready to build on your understanding. An “incomplete” means that you will need to do some revision or addition. Responding to feedback will lead to a “complete” grade and, more importantly, is one of the best ways to learn about instructional design.

Except in unusual circumstances, you will earn a B or lower if you:

- Miss more than one class in a quarter (except in cases of Covid-related experiences)
- Arrive late two or more times in a quarter without prior notice
- Miss more than one assignment in a quarter

Because we believe that an A grade in this course is generally attainable, we consider a B grade to be of some concern. If we are concerned about your progress, we will share those concerns with you and the STEP directors to help you get the support you need. We want you to become a capable and fulfilled teacher. You should also share any concerns about your progress with us so we can help you. *If you must be late or absent, please inform the instructors prior to class via text or email and arrange for a colleague to take notes and gather materials for you. If you think you need an extension on a deadline, you must let us know in advance.*

Course Readings & Materials

All course readings and materials will be available digitally on Canvas. If possible, we recommend purchasing a copy of [*Teaching English by Design, Second Edition: How to Create and Carry Out Instructional Units*](#) by Peter Smagorinsky, as it is a resource you might want to return to or have on your professional bookshelf. That said, all of the required and supplemental course readings from this book are available as PDFs on Canvas. If there is an additional chapter you are interested in, just let us know. **Note: We may make small changes to readings and assignments. The Modules and Assignments tabs on Canvas will be your most updated source.*

Support

Students who need an academic accommodation based on the impact of a disability must initiate the request with the Student Disability Resource Center (SDRC) located within the Office of Accessible Education (OAE). SDRC staff will evaluate the request with required documentation, recommend reasonable accommodations, and prepare an *Accommodation Letter* for faculty dated in the current quarter in which the request is being made. Students should contact the SDRC as soon as possible since timely notice is needed to coordinate accommodations. The OAE is located at 563 Salvatierra Walk (phone: 650-723-1066).

Preferred Name & Preferred Gender Pronouns

Class rosters are provided to the instructors with the student's legal name and gender designation; these records might not correspond to the name and gender pronouns you use. We will gladly honor your request to address you by your preferred name and pronouns. Please advise us of these preferences so we can make appropriate changes to our records. Please also let us know if these change at any point.

Stanford Honor Code

You are expected to follow the Stanford Honor Code. For an explanation of the Honor Code, please go to <http://www.stanford.edu/dept/vpsa/judicialaffairs/guiding/honorcode.htm>. If you have any questions about how it applies to a particular assignment, please ask.

Course topics and assignments are listed on the next pages.
