Mission Statement

The Stanford Teacher Education Program (STEP) of the Stanford University Graduate School of Education (GSE) aims to cultivate teacher leaders who share a set of core values that includes a commitment to social justice, an understanding of the strengths and needs of a diverse student population, and a dedication to equity and excellence for all students. The program takes an approach to teaching and learning that is sensitive to the family, community, and political contexts of education; focused on the needs and development of diverse learners; and grounded in the study of subject matter that enables inquiry, critical thinking, problem solving, and high academic achievement.

STEP seeks to prepare and support teacher leaders working with diverse learners to achieve high intellectual, academic, and social standards by creating equitable and successful schools and classrooms. Desired outcomes for graduates include an understanding of teaching as intellectual work and as a caring profession; a depth of content knowledge and a repertoire of powerful pedagogical practices; and a view of teaching and of the role of education in society informed by appreciation of the socio-cultural contexts of education. The content and design of the program are organized to foster an understanding of and commitment to research, reflection and inquiry in the classroom; collaboration across individuals, institutions and communities; a blending of theory and practice; and the effective use of technology as a teaching and learning tool.

Our goal is to prepare program graduates to meet both the practical and intellectual challenges of the teaching profession, to serve the needs of the diverse population of today's students, and to revitalize the profession and the field by preparing educational leaders for tomorrow's schools.

The Fundamental Standard

The Fundamental Standard has set the standard of conduct for students at Stanford since 1896. It states:

"Students at Stanford are expected to show both within and without the University such respect for order, morality, personal honor and the rights of others as is demanded of good citizens. Failure to do this will be sufficient cause for removal from the University."

Over the years, the Fundamental Standard has been applied to a great variety of situations. Actions which have been found to be in violation of it include:

- Physical Assault
- Property damage; attempts to damage University property
- Theft, including theft of University property such as street signs, furniture, and library books
- Forgery, such as signing an instructor's signature to a grade change card
- Sexual harassment or other sexual misconduct
- Charging computer time or long distance telephone calls to unauthorized accounts
- Misrepresentation in seeking financial aid, University housing, discount computer purchases, or other University benefits
- Misuse of University computer equipment or e-mail
- Driving on campus while under the influence of alcohol or drugs
- Sending threatening and obscene messages to another student via e-mail, phone or voice-mail

There is no standard penalty which applies to violations of the Fundamental Standard. Infractions have led to penalties ranging from formal warning and community service to expulsion. In each case, the nature and seriousness of the offense, the motivation underlying the offense, and precedent in similar cases are considered.

Honor Code

- A. The Honor Code is an undertaking of the students, individually and collectively:
1. that they will not give or receive aid in examinations; that they will not give or receive unpermitted aid in class work, in the preparation of reports, or in any other work that is to be used by the instructor as the basis of grading;
 2. that they will do their share and take an active part in seeing to it that others as well as themselves uphold the spirit and letter of the Honor Code.
- B. The faculty on its part manifests its confidence in the honor of its students by refraining from proctoring examinations and from taking unusual and unreasonable precautions to prevent the forms of dishonesty mentioned above. The faculty will also avoid, as far as practicable, academic procedures that create temptations to violate the Honor Code.
- C. While the faculty alone has the right and obligation to set academic requirements, the students and faculty will work together to establish optimal conditions for honorable academic work.

Examples of conduct which have been regarded as being in violation of the Honor Code include:

- Copying from another's examination paper or allowing another to copy from one's own paper
- Unpermitted collaboration
- Plagiarism
- Revising and resubmitting a quiz or exam for regrading, without the instructor's knowledge and consent
- Giving or receiving unpermitted aid on a take-home examination
- Representing as one's own work the work of another
- Giving or receiving aid on an academic assignment under circumstances in which a reasonable person should have known that such aid was not permitted

In recent years, most student disciplinary cases have involved Honor Code violations; of these, the most frequent arise when a student submits another's work as his or her own, or gives or receives unpermitted aid. The standard penalty for a first offense includes a one-quarter suspension from the University and 40 hours of community service. In addition, most faculty members issue a "No Pass" or "No Credit" for the course in which the violation occurred. The standard penalty for a multiple violation (e.g. cheating more than once in the same course) is a three-quarter suspension and 40 or more hours of community service.

Code of Ethics

PREAMBLE

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence, and the nurture of democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of students, of parents, and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct. The Code of Ethics of the Education Profession indicates the aspiration of all educators and provides standards by which to judge conduct.

The remedies specified by the NEA and/or its affiliates for the violation of any provision of this Code shall be exclusive and no such provision shall be enforceable in any form other than one specifically designed by the NEA or its affiliates.

PRINCIPLE I

COMMITMENT TO THE STUDENT

The educator strives to help each student realize his or her potential as a worthy and effective member of society. The educator therefore works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding, and the thoughtful formulation of worthy goals.

In fulfillment of the obligation to the student, the educator -

- Shall not reasonably restrain the student from independent action in the pursuit of learning.
- Shall not unreasonably deny the student access to varying points of view.
- Shall not deliberately suppress or distort subject matter relevant to the student's progress.
- Shall make reasonable effort to protect the student from conditions harmful to learning or to health and safety.
- Shall not intentionally expose the student to embarrassment or disparagement.
- Shall not on the basis of race, color, creed, sex, national origin, marital status, political or religion beliefs, family, social, or cultural background, or sexual orientation, unfairly -
- Exclude any student from participation in any program b. Deny benefits to any student
- Grant any advantage to any student.
- Shall not use professional relationships with students for private advantage.
- Shall not disclose information about students obtained in the course of professional service unless disclosure serves a compelling professional purpose or is required by law.

PRINCIPLE II

COMMITMENT TO THE PROFESSION

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education profession directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards, to promote a climate that encourages the exercise of professional judgment, to achieve conditions that attract

persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

In fulfillment of the obligation of the profession, the educator -

- Shall not in any application for a professional position deliberately make a false statement or fail to disclose a material fact related to competency and qualifications.
- Shall not misrepresent his/her professional qualifications.
- Shall not assist any entry into the profession of a person known to be unqualified in respect to character, education, or other relevant attribute.
- Shall not knowingly make a false statement concerning the qualifications of a candidate for a professional position.
- Shall not assist a noneducator in the unauthorized practice of teaching.
- Shall not disclose information about colleagues obtained in the course of professional service unless disclosure serves a compelling professional purpose or is required by law.
- Shall not knowingly make false or malicious statements about a colleague.
- Shall not accept any gratuity, gift, or favor that might impair or appear to influence professional decisions or action.

- Adopted by the NEA

1975 Representative Assembly

<http://www.cta.org/About-CTA/Who-We-Are/Code-of-Ethics.aspx>

Procedures for the Dismissal of Masters Students at GSE

All students at GSE are expected to meet university and program requirements for their degrees and fulfill minimum progress requirements. Program requirements include professional expectations and competencies. The following process outlines the general steps followed prior to reaching a decision to dismiss a student from a masters program at GSE:

1. A warning is issued in writing to the student by the Associate Dean of Student Services detailing the situation and deficiency. Prior to issuing the warning, the Associate Dean will consult with the director of the program in which the student is enrolled about the case, or in the case of programs with no director, with the Area Committee Chair or faculty sponsor who oversees administration of the program.
2. Extenuating circumstances, if communicated by the student, are considered.
3. A plan of action to remedy the deficiency, if the deficiency is deemed to be correctable, with stated goals and deadlines, is communicated to the student in writing.
4. The issue of continuation in the program or dismissal is subsequently decided upon by majority vote of the Area Chairs in Education (ACE) Committee. At least three members of the Committee must participate in the deliberations. A recommendation for action is made by the Committee to the Associate Dean for Student Affairs. A written summary of the decision is sent to the student.
5. A summary of the School discussions, votes, and decisions is placed in the student's file.
6. The student is provided the opportunity to examine his or her file, if desired.
7. The student is advised on her or his rights to appeal under the Student Academic Grievance Procedures, as detailed in the Stanford Bulletin.

Professional Expectations and Competencies for STEP Candidates

The California Standards for the Teaching Profession (CSTPs) and Teaching Performance Expectations (TPEs) provide a framework for assessing and documenting the teacher candidate's progress throughout the program. In addition to the CSTPs, the candidates are also held to the professional standards and expectations as outlined in the following documents: the National Education Association (NEA) Code of Ethics and the Family Education Rights and Privacy Act (FERPA).

Program Requirements/Academic Planning

The Master of Arts and the California preliminary multiple subject teaching credential require a minimum of 45 quarter units of graduate work. These courses are distributed over a four-quarter sequence. The distribution of these units is determined by course schedule, accreditation requirements, and a specially designed tuition plan.

To fulfill credentialing requirements, the program must include all of these courses and units:

SUMMER	FALL (+PRE-FALL)	WINTER	SPRING
EDUC246E Elementary Teaching Seminar <i>3 units</i>	EDUC246F Elementary Teaching Seminar <i>5 units (4 for bilingual pathway)</i>	EDUC246G Elementary Teaching Seminar <i>3 units [edTPA]</i>	EDUC246H Elementary Teaching Seminar <i>4 units</i>
EDUC228E BLIS I <i>2 units</i>	EDUC228F BLIS II <i>2 units</i>		EDUC228G BLIS III, <i>2 units</i>
EDUC263E Quantitative Reasoning & Mathematics I <i>2 units</i>	EDUC263F Quantitative Reasoning & Mathematics II <i>2 units</i>	EDUC263G Quantitative Reasoning & Mathematics III <i>2 units</i>	
	EDUC267E Development of Scientific Reasoning & Knowledge I <i>2 units</i>	EDUC267F Development of Scientific Reasoning & Knowledge II <i>2 units</i>	EDUC228H Literacy, History, and Social Studies <i>1 unit</i>
	EDUC283 Child Development in and Beyond Schools <i>2 units</i>	EDUC388A Language Policies and Practices <i>2 units</i>	EDUC285 Supporting Students with Special Needs <i>2 units</i>
EDUC244E Building Classroom Community <i>1 unit</i>	EDUC244F Building Classroom Communities <i>1 unit</i>	EDUC269X Ethics in Teaching <i>1 unit</i>	
EDUC219E The Creative Arts in Elementary Classrooms <i>2 units</i>	EDUC299 Equity and Schooling <i>3 units</i>		
	EDUC264E Métodos y Materiales en los Salones Bilingües <i>2 units (Bilingual only)</i>		Métodos y Materiales en los Salones Bilingües
	EDUC388F Language Workshop <i>1 unit (English only)</i>		EDUC267G Integrating the Garden into the Elementary Curriculum <i>1 unit</i>
10 UNITS	18 UNITS	10 UNITS	10 UNITS

Program Planning Reminders

1. STEP teacher candidates are admitted into the program in a specific subject area in which they wish to be credentialed. Teacher candidates attend the corresponding C&I class sequence and are assigned a teaching position in that content area.
2. Courses must be at or above the 100 level and not be activity classes in order to be counted towards the minimum 45 units required for conferral of the Master's degree.

University Registration Requirements

Stanford requires students to register online by filing a study list in Axxess. Students receiving financial assistance must register by the financial aid and registration deadlines posted in the University Academic Calendar and enroll in a minimum of 8 units. For detailed dates and schedules, please refer to the Registrar's academic calendar or the calendar listed on the printed time schedule published quarterly.

*For complete registration information refer to "Registering at Stanford" or read the online version
<http://registrar.stanford.edu/Axxess/Studenthelp/enrollment/>.*

Student Financial Services automatically bills students at the 8-10-unit rate. Students will only receive an online bill. No paper bills will be printed or mailed to students. The student bill is adjusted after the student registers for the correct number of units. Please register for the number of units listed in your STEP curriculum each quarter to avoid being overcharged (more than the required units) or having loans cancelled (taking fewer than the required units). Registration in the correct number of units is also required for students to receive their STEP fellowships.

Additional credential Requirements

In addition to completing the course work described earlier in this handbook, teacher candidates have an additional set of requirements to meet in order to be recommended for the California preliminary multiple subject teaching credential.

The multiple subject teaching credential authorizes the holder to teach in a self-contained classroom such as the classrooms in most elementary schools. However, a teacher authorized for multiple subject instruction may be assigned to teach in any self-contained classroom (preschool, K-12, or in classes organized primarily for adults). In addition, the holder of a multiple subject teaching credential may serve in a core or team teaching setting.

STEP teacher candidates interested in Bilingual Education may also earn a Bilingual Authorization. Bilingual authorization candidates must demonstrate speaking, reading, listening and writing proficiency in Spanish. Frequently students have a Spanish major or minor, were raised in a multilingual community or have had significant other experiences with the language (i.e. study abroad, Peace Corps). Please contact Ira Lit for more information.

In order to be recommended for the California preliminary multiple subject teaching credential, candidates must meet all of the requirements listed below, in addition to successful completion of all STEP requirements:

Requirement/Estimated Costs	How	When
<p>LiveScan & Fingerprints</p> <p>Estimated Cost: \$70-\$90</p>	<p>Complete LiveScan Service 41-LS. Bring Forms to LiveScan operator.</p>	<p>Candidates currently residing in California complete this no later than April 30, 2018.</p> <p>Candidates currently residing outside of California complete this the first day of STEP orientation.</p>
<p>Certificate of Clearance</p> <p>Estimated Cost: \$50</p>	<p>Apply for Certificate of Clearance here.</p>	<p>Candidates currently residing in California complete this no later than April 30, 2018.</p> <p>Candidates currently residing outside of California complete this the first day of STEP orientation.</p>
<p>Subject matter verification</p> <p>Estimated Cost: \$300</p>	<p>CSET (California Subject Examination for Teachers)</p> <p>For CSET test dates and locations visit www.cset.nesinc.com.</p>	<p>To begin STEP in June: Must pass at least two of the subtests on the CSET Multiple Subject exam.</p>
<p>Basic Skills Requirement: To verify proficiency in basic reading, writing, and mathematical skills</p> <p>Estimated Cost: \$101</p>	<p>Pass the CBEST (California Basic Educational Skills Test) OR the CSET Writing exam</p> <p>To sign up for the exams visit: www.cbest.nesinc.com www.cset.nesinc.com</p> <p>The Basic Skills Requirement can be satisfied with other options. For more information http://www.etc.ca.gov/credentials/leaflets/cl667.pdf</p>	<p>California residents: Must pass exam before starting STEP in June.</p> <p>Out of state residents: Take and pass exam on or before early August 2018. If you have taken a basic skills exam in another state, you may be exempt from taking the CBEST. Please contact Viviana Alcazar for more information.</p>
<p>English Learner Authorization: Instruction of English Language learners</p> <p>No Cost</p>	<p>Successfully complete all SB2042 credential requirements</p>	<p>Complete all STEP coursework and have appropriate student teaching placement.</p>

Health Estimated Cost: \$45-\$75	Obtain certificate for adult, child, and infant CPR	Complete a CPR course by early January 2019. STEP will provide training in the fall quarter.
Reading To measure knowledge, skill and ability relative to effective reading instruction Estimated Cost: \$170	Take and pass the RICA (Reading Instruction Competence Assessment) To sign up for the exam visit: www.rica.nesinc.com	Take online exam before February 2019.
U.S. Constitution: To demonstrate knowledge of principles of and provisions of the U.S. Constitution Estimated Cost: \$85	Have taken a course (at least 2 semester units or 3 quarter units) from an approved college or university covering the principles of the United States Constitution STEP coordinator to evaluate college transcript.	By early January 2019.
Show proof of negative TB results Estimated Cost: Varies depending on health coverage	TB exam	Paperwork required before beginning summer program at the STEP/ Sunnyvale summer school
(Bilingual Authorization students only) Demonstrate competency in methods, language and culture Estimated Cost: \$200	Pass the class Métodos y Materiales en los Salones Bilingües Complete a bilingual placement Pass the CSET LOTE exams in both Language and Culture during the STEP year.	CSET LOTE: Spanish, subtests III (language) and V (culture) We encourage students to take the CSET LOT by early fall 2019. Register online at www.cset.nesinc.com .
edTPA Estimated Cost: \$300	See page 15 of this handbook for more information	

Financial Information

Questions concerning financial aid as well as financial considerations in the distribution of units should be directed to Ira Lit or Viviana Alcazar. If an emergency arises and/or your financial needs change during the academic year, please contact Ira Lit immediately. Contact the financial aid office directly via email: financialaid@stanford.edu.

All STEP tuition fellowship recipients are expected to maintain satisfactory academic (a cumulative B average --3.0) and student teaching progress throughout the year in order to maintain fellowship eligibility status.

Recommended unit distribution and tuition amounts

<u>Quarter</u>	<u>Units</u>	<u>Tuition</u>
summer	10	\$10,620
autumn	18	\$16,901
winter	10	\$10,990
spring	10	\$10,990
GRAND TOTAL	48	\$49,501

Students with Documented Disabilities

Students who have a disability that may necessitate an academic accommodation or the use of auxiliary aids and services in a class must initiate the request with the [Office of Accessible Education](#) (OAE). The OAE will evaluate the request with required documentation, recommend appropriate accommodations, and prepare a verification letter dated in the current academic term in which the request is being made. Please contact the OAE as soon as possible; timely notice is needed to arrange for appropriate accommodations. The OAE is located at 563 Salvatierra Walk.

As a summative assessment for your STEP year, you will complete the edTPA. Over the course of the year you will receive preparation and support for completing the various components of this assessment from your supervisor, from your CT and through your coursework.

Background

In 1998 the California state legislature voted to require teacher preparation programs to use standardized performance assessments to make credentialing decisions. A coalition of California universities developed an alternative standards-based assessment entitled the Performance Assessment for California Teachers (PACT). The aim was to develop subject-specific assessments that captured teaching knowledge and skills. STEP was instrumental in the development of PACT and used PACT as a summative assessment for over 10 years. STEP has now transitioned to edTPA.

edTPA is aligned with Interstate Teacher Assessment and Support Consortium (InTASC) standards, state professional teaching standards, Council for the Accreditation of Educator Preparation (CAEP) standards and the Common Core State Standards. edTPA provides meaningful data to support teacher education programs as they evaluate, reflect on and continually improve their programs to ensure a relevant, integrated curriculum centered on student learning.

Purposes of edTPA

The purpose of edTPA, a nationally available performance-based assessment, is to measure novice teachers' readiness to teach. The assessment is designed with a focus on student learning and principles from research and theory. It is based on findings that successful teachers:

- Develop knowledge of subject matter, content standards, and subject-specific pedagogy;
- Develop and apply knowledge of varied students' needs;
- Consider research and theory about how students learn; and
- Reflect on and analyze evidence of the effects of instruction on student learning. As a performance-based assessment, edTPA is designed to engage candidates in demonstrating their understanding of teaching and student learning in authentic ways.

In addition to meeting the coursework and fieldwork requirements of a credentialing program, the State of California requires that teacher candidates achieve a passing score on the edTPA (or another approved performance assessment) before being recommended for a Preliminary Teaching Credential. The State of California also requires Embedded Signature Assessments. The ESAs differ from institution to institution but include items such as case studies of individual students, lesson or unit plans, analyses of student work, and observations of and reflections about student teaching. At Stanford, the ESAs represent major course assignments and are captured in a Teaching Portfolio submitted at the end of the program. These assessments include summative course assignments and all reflections connected with formal observations by Supervisors.

Subject-Specific Tasks

Elementary candidates also complete two subject-specific tasks. These two additional tasks address the core content areas that are not the focus of the more substantial edTPA- science and history/social science.

Elementary Education Overview of the Assessment^[L]^[SEP]

The edTPA Elementary Education assessment is composed of four tasks: ^[L]^[SEP]

Planning for Literacy Instruction and Assessment ^[L]^[SEP]

Instructing and Engaging Students in Literacy Learning ^[L]^[SEP]

Assessing Students' Literacy Learning ^[L]^[SEP]

Assessing Students' Mathematic Learning ^[L]^[SEP]

The edTPA Elementary Education assessment is designed for teacher education programs that plan to implement the full edTPA in Elementary Literacy (Tasks 1–3), and also require candidates to demonstrate their readiness to teach by completing the Elementary Mathematics Assessment Task (Task 4). ^[L]^[SEP]For the *Elementary Literacy Assessment Tasks*, you will first plan 3–5 consecutive literacy lessons (or, if teaching within a large time block, 3–5 hours of connected instruction), referred to as a learning segment. Consistent with recommendations provided by the International Reading Association (2010) for literacy professionals, a learning segment prepared for this assessment should reflect a balanced literacy curriculum. This means your learning segment should include learning tasks in which students have opportunities to develop an essential literacy strategy for comprehending or composing text and the related skills that directly support that strategy.

You will then teach the learning segment, making a video recording of your interactions with students during instruction. You will also assess, informally and formally, students' learning throughout the learning segment. Upon completion of the three tasks, you will submit artifacts from the tasks (e.g., lesson plans, clips from your video recording, assessment materials, instructional materials, student work samples), as well as commentaries that you have written to explain and reflect on the Planning, Instruction, and Assessment components of the tasks. The artifacts and commentaries for each task will then be evaluated using rubrics especially developed for each task.

For the *Elementary Mathematics Assessment Task*, you will develop or adapt a relevant assessment of student learning, analyze student work, and design re-engagement instruction to develop students' mathematics understanding. Consistent with the *Principles and Standards for School Mathematics* (2000), candidates' responses to this task should reflect a balanced approach to mathematics, including opportunities for students to develop conceptual understanding, procedural fluency, and mathematical reasoning/problem-solving skills as well as to communicate precisely about their mathematical understanding. This task centers on two high-leverage teaching practices: using assessments to analyze student learning and re-engaging students to develop their understanding of specific mathematical concepts.

STEP Policy Regarding edTPA Remediation and Resubmission

This policy provides additional guidance for the STEP Directors regarding teacher candidates who do not pass the edTPA. This policy should be read in conjunction with edTPA guidance (www.edTPA.com), with STEP's related accreditation documents and other program policies, which delineate appropriate measures for remediation and rescoring of the edTPA.

A candidate may be able to rework/rewrite and resubmit individual parts of the edTPA. However, under certain conditions, a candidate who does not pass the edTPA and wishes to resubmit materials for rescoring may be required to complete a full edTPA. Additionally, the resubmission and rescoring may not be practicable during the spring quarter of the current STEP calendar year.

Two options are available to candidates under these circumstances:

Option 1: If the candidate does not elect to resubmit materials for rescoring, he or she may apply for graduation with a Masters in June, and will not be recommended for a teaching credential. If the candidate elects to receive his/her degree in June, no subsequent option for resubmitting materials for the edTPA or credential recommendation will be available.

Option 2: If the candidate wishes to resubmit edTPA materials for rescoring, the following conditions and considerations apply:

1. The candidate must have successfully completed all other program requirements and be in good standing for consideration to score the resubmitted materials.
2. The candidate will be required to enroll in at least one quarter in the next academic year (summer, autumn, winter or spring), and cannot confer the master's degree (or apply for graduation) prior to completion of the edTPA and subsequent scoring/appeal. Extensions beyond spring quarter of the next academic year will not be permitted.
3. The teacher candidate is responsible for all registration fees and tuition associate with enrollment in the additional quarter(s). Additional paperwork may also be required.

Note regarding registration requirements:

All candidates must be registered students in the quarter in which the teaching for edTPA takes place. Candidates must also be enrolled in the quarter in which an appeal of the evaluation takes place. Stanford requires that all students be enrolled in the quarter in which they receive their degrees.

The STEP Elementary Graduation Portfolio

The STEP Elementary Graduation Portfolio is a collection of materials and artifacts that reflects your learning and growth this year in STEP, as well as your professional knowledge, skills, goals, and philosophy thus far. The Graduation Portfolio is designed to...

- provide you with a collection of materials that may be helpful to in your future teaching and professional development and during your interviews for a current or future teaching position;
- provide STEP Elementary with information that will help us engage in a cycle of continuous program improvement.

****You will upload your Graduation Portfolio to Watermark/ Tk20. We also encourage you to save a copy to a flash drive or external hard drive for your own future reference****

The Graduation Portfolio has multiple components:

➤ **RESUME AND SAMPLE COVER LETTER**

Include references to your expected Stanford M.A. degree in Education, as well as your student teaching experiences. As a separate item, list all STEP courses you have taken. These are part of your specialized training. List additional professional development experiences you have had before or during STEP. Include non-confidential letters of reference if available.

➤ **EVIDENCE OF EFFECTIVE TEACHING PRACTICE (COMPLETED VIA YOUR EDTPA PORTFOLIO)**

The edTPA portfolio gives you the opportunity to present an authentic sample of your teaching practice, your students' learning, and your reflections on the relationship between the two based on a series of lessons. *Your edTPA materials are already uploaded to TK20. You do not need to add anything new to the Graduation Portfolio portal.*

➤ **CORE ASSIGNMENTS AND PROJECTS**

You will select a major assignment or project from a selection of your STEP courses that demonstrates your knowledge, skills, thinking, growth, and learning as a professional educator. Additionally, include other artifacts from your clinical experience that you think are important representations of your work and growth as a professional educator.

➤ **INDEPENDENT STUDENT TEACHING PLAN(S)**

Include evidence of your planning for teaching from your Independent Student Teaching. You might include your daily planning schedule and/or some key pieces of your lesson planning, sample assessment tools, communications with families, and samples of student work.

➤ **FINAL SUMMATIVE ASSIGNMENT: PLEASE CHOOSE ONE OF THE OPTIONS OFFERED ON THE DESCRIPTION OF THE SUMMATIVE SEMINAR ASSIGNMENT. YOU WILL INCLUDE THIS PROJECT IN YOUR ONLINE PORTFOLIO AND EMAIL A COPY TO YOUR SPRING SEMINAR INSTRUCTORS. * IF YOUR SUMMATIVE PROJECT IS VIDEO OR WEB-BASED, YOU CAN JUST UPLOAD A PDF WITH AN LINK TO YOUR PROJECT RATHER THAN ATTEMPTING TO UPLOAD THE PROJECT DIRECTLY INTO WATERMARK/ TK20. ***

STEP Conference

Overview

As the capstone event of the STEP year, the **STEP Conference** is an opportunity for teacher candidates to showcase their learning as well as share their passion for ideas and practices that matter for students and schools. It is an opportunity for teacher candidates to participate in a professional conference, which is practice for an activity that serves as a rich source of professional development for teachers across their careers. Furthermore, the STEP Conference provides candidates with an opportunity to transition from student to teacher- a moment to demonstrate and celebrate graduation and the achievement that it signifies. Graduating from STEP is not the end of your development as a teacher, but a milestone in what we hope will be your ongoing growth and development. Those who attend the conference- STEP and GSE colleagues, STEP supporters, cooperating teachers, supervisors, family, and friends- come to learn about the key pedagogical innovations and topics in education that shape their approach to teaching and learning. The conference and the evening celebration provide you with an opportunity to share this milestone with the entire STEP community as well as your family and friends before you disperse for the weekend's graduation activities.

Conference Logistics

Conference sessions are 75 minutes long and are organized by teacher candidates working together in groups of 3 to 5. Sessions run concurrently, approximately 6 sessions at a time, and descriptions are published in a conference brochure that is available to all who attend. STEP teacher candidates are both the presenters and the audience, and everyone participates in all of the day's events. The conference concludes with a plenary speaker and reception.

Session Planning

As you prepare for your session, note that professional education conferences offer an opportunity to enact some of the habits of mind and practices that teacher leaders and teacher scholars engage in throughout their careers:

- identifying questions, issues and topics that are of importance to professional practice for educators and outcomes for students;
- collaborating with professional peers to investigate these questions and topics in both professional literature and clinical practice; and
- sharing your questions, your knowledge, and your voice with educators and other members of the community in ways that promote professional growth and ultimately support the students, families, and communities we all serve.

A strong professional conference session will draw upon your skills as an instructional planner:

- Design goals for your conference session- What is it that you want other educators to know or be able to do as a result of this work? What do you want your participants at the conference to experience? To learn? To leave thinking about?
- Gather information and resources about your topic based on the goals you set.
- Prepare a lesson plan for your conference session- Your group will need to determine the best way to organize activities, materials, space and time during the session to meet your goals.

California Standards for the Teaching Profession

Teachers in California have a professional responsibility to provide students with safe and caring learning environments, where students' differences are celebrated and supported, and they acquire the knowledge, skills, strategies, and concepts they will need for successful participation in an increasingly technological and global society. The CSTP provide a set of interrelated guideposts for teachers across the professional continuum (pre-service, induction, and beyond) to examine their practice, seek support and resources for continuous improvement, and affirm their talents and accomplishments in support of California's children and our nation's future.

Engage and support all students in learning.

Teachers need to:

- use knowledge of students to engage them in learning;
- connect learning to students' prior knowledge, backgrounds, life experiences, and interests;
- connect subject matter to meaningful, real-life contexts;
- use a variety of instructional strategies, resources, and technologies to meet students' diverse learning needs;
- promote critical thinking through inquiry, problem solving, and reflection;
- monitor student learning and adjust instruction while teaching.

Create and maintain effective environments for student learning.

Teachers need to:

- promote social development and responsibility within a caring community where each student is treated fairly and respectfully;
- create physical or virtual learning environments that promote student learning, reflect diversity, and encourage constructive and productive interactions among students;
- establish and maintain learning environments that are physically, intellectually, and emotionally safe;
- create a rigorous learning environment with high expectations and appropriate support for all students;
- develop, communicate, and maintain high standards for individual and group behavior;
- employ classroom routines, procedures, norms, and supports for positive behavior to ensure a climate in which all students can learn;
- use instructional time to optimize learning.

Understand and organize subject matter for student learning.

Teachers need to:

- demonstrate knowledge of subject matter, academic content standards, and curriculum frameworks;
- apply knowledge of student development and proficiencies to ensure student understanding of subject matter;
- organize curriculum to facilitate student understanding of the subject matter;
- utilize instructional strategies that are appropriate to the subject matter;
- use and adapt resources, technologies, and standards-aligned instructional materials, including adopted materials, to make subject matter accessible to all students;
- address the needs of English learners and students with special needs to provide equitable access to the content.

Plan instruction and design learning experiences for all students.

Teachers need to:

- use knowledge of students' academic readiness, language proficiency, cultural background, and individual development to plan instruction;
- establish and articulate goals for student learning;
- develop and sequence long-term and short-term instructional plans to support student learning;
- plan instruction that incorporates appropriate strategies to meet the learning needs of all students;
- adapt instructional plans and curricular materials to meet the assessed learning needs of all students.

Assess students for learning.

Teachers need to:

- apply knowledge of the purposes, characteristics, and uses of different types of assessments;
- collect and analyze assessment data from a variety of sources to inform instruction;
- review data, both individually and with colleagues, to monitor student learning;
- use assessment data to establish learning goals and to plan, differentiate, and modify instruction;
- involve all students in self-assessment, goal setting, and monitor progress;
- use available technologies to assist in assessment, analysis, and communication of student learning;
- use assessment information to share timely and comprehensible feedback with students and their families.

Develop as a professional educator.

Teachers need to:

- reflect on teaching practice in support of student learning;
- establish professional goals and engage in continuous and purposeful professional growth and development;
- collaborate with colleagues and the broader professional community to support teacher and student learning;
- work with families to support student learning;
- engage local communities in support of the instructional program;
- manage professional responsibilities to maintain motivation and commitment to all students;
- demonstrate professional responsibility, integrity, and ethical conduct.

Teaching Performance Expectations

The *Teaching Performance Expectations (TPEs)* comprise the body of knowledge, skills, and abilities that beginning general education teachers have the opportunity to learn in approved teacher preparation programs in California. Beginning teachers demonstrate their knowledge of the TPEs by successfully completing course work, engaging in clinical practice, and passing a Teaching Performance Assessment (TPA) based on the TPEs. Beginning teachers must meet these requirements prior to being recommended for a preliminary teaching credential in California. TPEs guide teacher preparation program development; candidate competency with respect to the TPEs is measured through the TPA.

Engaging and Supporting All Students in Learning

Beginning teachers:

- Apply knowledge of students, including their prior experiences, interests, and social-emotional learning needs, as well as their funds of knowledge and cultural, language, and socioeconomic backgrounds, to engage them in learning.
- Maintain ongoing communication with students and families, including the use of technology to communicate with and support students and families, and to communicate achievement expectations and student progress.
- Connect subject matter to real-life contexts and provide active learning experiences to engage student interest, support student motivation, and allow students to extend their learning.
- Use a variety of developmentally and ability-appropriate instructional strategies, resources, and assistive technology, including principles of Universal Design of Learning (UDL) and Multi-Tiered System of Supports (MTSS) to support access to the curriculum for a wide range of learners within the general education classroom and environment.
- Promote students' critical and creative thinking and analysis through activities that provide opportunities for inquiry, problem solving, responding to and framing meaningful questions, and reflection.
- Provide a supportive learning environment for students' first and/or second language acquisition by using research-based instructional approaches, including focused English Language Development, Specially Designed Academic Instruction in English (SDAIE), scaffolding across content areas, and structured English immersion, and demonstrate an understanding of the difference among students whose only instructional need is to acquire Standard English proficiency, students who may have an identified disability affecting their ability to acquire Standard English proficiency, and students who may have both a need to acquire Standard English proficiency and an identified disability.
- Provide students with opportunities to access the curriculum by incorporating the visual and performing arts, as appropriate to the content and context of learning.
- Monitor student learning and adjust instruction while teaching so that students continue to be actively engaged in learning.

Creating and Maintaining Effective Environments for Student Learning

Beginning teachers:

- Promote students' social-emotional growth, development, and individual responsibility using positive interventions and supports, restorative justice, and conflict resolution practices to foster a caring community where each student is treated fairly and respectfully by adults and peers.
- Create learning environments (i.e., traditional, blended, and online) that promote productive student learning, encourage positive interactions among students, reflect diversity and multiple perspectives, and are culturally responsive.
- Establish, maintain, and monitor inclusive learning environments that are physically, mentally, intellectually, and emotionally healthy and safe to enable all students to learn, and recognize and appropriately address instances of intolerance and harassment among students, such as bullying, racism, and sexism.
- Know how to access resources to support students, including those who have experienced trauma, homelessness, foster care, incarceration, and/or are medically fragile.
- Maintain high expectations for learning with appropriate support for the full range of students in the classroom.
- Establish and maintain clear expectations for positive classroom behavior and for student-to-student and student-to-teacher interactions by communicating classroom routines, procedures, and norms to students and families.

Understanding and Organizing Subject Matter for Student Learning

Beginning teachers:

- Demonstrate knowledge of subject matter, including the adopted California State Standards and curriculum frameworks.
- Use knowledge about students and learning goals to organize the curriculum to facilitate student understanding of subject matter, and make accommodations and/or modifications as needed to promote student access to the curriculum.
- Plan, design, implement, and monitor instruction consistent with current subject-specific pedagogy in the content area(s) of instruction, and design and implement disciplinary and cross-disciplinary learning sequences, including integrating the visual and performing arts as applicable to the discipline.
- Individually and through consultation and collaboration with other educators and members of the larger school community, plan for effective subject matter instruction and use multiple means of representing, expressing, and engaging students to demonstrate their knowledge.
- Adapt subject matter curriculum, organization, and planning to support the acquisition and use of academic language within learning activities to promote the subject matter knowledge of all students, including the full range of English learners, Standard English learners, students with disabilities, and students with other learning needs in the least restrictive environment.
- Use and adapt resources, standards-aligned instructional materials, and a range of technology, including assistive technology, to facilitate students' equitable access to the curriculum.
- Model and develop digital literacy by using technology to engage students and support their learning, and promote digital citizenship, including respecting copyright law, understanding fair use guidelines and the use of Creative Commons license, and maintaining Internet security.
- Demonstrate knowledge of effective teaching strategies aligned with the internationally recognized educational technology standards.

Planning Instruction and Designing Learning Experiences for All Students

Beginning teachers:

- Locate and apply information about students' current academic status, content- and standards-related learning needs and goals, assessment data, language proficiency status, and cultural background for both short-term and long-term instructional planning purposes.
- Understand and apply knowledge of the range and characteristics of typical and atypical child development from birth through adolescence to help inform instructional planning and learning experiences for all students.
- Design and implement instruction and assessment that reflects the interconnectedness of academic content areas and related student skills development in literacy, mathematics, science, and other disciplines across the curriculum, as applicable to the subject area of instruction.
- Plan, design, implement and monitor instruction, making effective use of instructional time to maximize learning opportunities and provide access to the curriculum for all students by removing barriers and providing access through instructional strategies that include:
 - appropriate use of instructional technology, including assistive technology;
 - applying principles of UDL and MTSS;
 - use of developmentally, linguistically, and culturally appropriate learning activities, instructional materials, and resources for all students, including the full range of English learners;
 - appropriate modifications for students with disabilities in the general education classroom;
 - opportunities for students to support each other in learning; and
 - use of community resources and services as applicable.
- Promote student success by providing opportunities for students to understand and advocate for strategies that meet their individual learning needs and assist students with specific learning needs to successfully participate in transition plans (e.g., IEP, IFSP, ITP, and 504 plans.)
- Access resources for planning and instruction, including the expertise of community and school colleagues through in-person or virtual collaboration, co-teaching, coaching, and/or networking.
- Plan instruction that promotes a range of communication strategies and activity modes between teacher and student and among students that encourage student participation in learning.
- Use digital tools and learning technologies across learning environments as appropriate to create new content and provide personalized and integrated technology-rich lessons

- to engage students in learning, promote digital literacy, and offer students multiple means to demonstrate their learning.

Assessing Student Learning

Beginning teachers:

- Apply knowledge of the purposes, characteristics, and appropriate uses of different types of assessments (e.g., diagnostic, informal, formal, progress-monitoring, formative, summative, and performance) to design and administer classroom assessments, including use of scoring rubrics.
- Collect and analyze assessment data from multiple measures and sources to plan and modify instruction and document students' learning over time.
- Involve all students in self-assessment and reflection on their learning goals and progress and provide students with opportunities to revise or reframe their work based on assessment feedback.
- Use technology as appropriate to support assessment administration, conduct data analysis, and communicate learning outcomes to students and families.
- Use assessment information in a timely manner to assist students and families in understanding student progress in meeting learning goals.
- Work with specialists to interpret assessment results from formative and summative assessments to distinguish between students whose first language is English, English learners, Standard English learners, and students with language or other disabilities.
- Interpret English learners' assessment data to identify their level of academic proficiency in English as well as in their primary language, as applicable, and use this information in planning instruction.
- Use assessment data, including information from students' IEP, IFSP, ITP, and 504 plans, to establish learning goals and to plan, differentiate, make accommodations and/or modify instruction.

Developing as a Professional Educator

Beginning teachers:

- Reflect on their own teaching practice and level of subject matter and pedagogical knowledge to plan and implement instruction that can improve student learning.
- Recognize their own values and implicit and explicit biases, the ways in which these values and implicit and explicit biases may positively and negatively affect teaching and learning, and work to mitigate any negative impact on the teaching and learning of students. They exhibit positive dispositions of caring, support, acceptance, and fairness toward all students and families, as well as toward their colleagues.
- Establish professional learning goals and make progress to improve their practice by routinely engaging in communication and inquiry with colleagues.
- Demonstrate how and when to involve other adults and to communicate effectively with peers and colleagues, families, and members of the larger school community to support teacher and student learning.
- Demonstrate professional responsibility for all aspects of student learning and classroom management, including responsibility for the learning outcomes of all students, along with appropriate concerns and policies regarding the privacy, health, and safety of students and families. Beginning teachers conduct themselves with integrity and model ethical conduct for themselves and others.
- Understand and enact professional roles and responsibilities as mandated reporters and comply with all laws concerning professional responsibilities, professional conduct, and moral fitness, including the responsible use of social media and other digital platforms and tools.
- Critically analyze how the context, structure, and history of public education in California affects and influences state, district, and school governance as well as state and local education finance.

Adopted by the California Commission on Teacher Credentialing, June 2016

California Commission on Teacher Credentialing (2016). *California Teaching Performance Expectations*. Sacramento, CA: Commission on Teacher Credentialing.

Guiding Principles for Selecting Placements

The purpose of student teaching occurring concurrently with university coursework is to allow teacher candidates the opportunity to construct bridges between theory and practice.

Teacher candidates spend time in schools and classrooms observing and practicing different approaches to teaching and learning. They experience the rhythms of a day, week, semester, and ultimately the year as they develop relationships with students, school faculty, parents/families, and others involved in the work of the school. Carefully chosen settings with expert cooperating teachers support the candidates' growth and development as novice teachers. When cooperating teachers open up their classroom to a teacher candidate by being a mentor and coach they make an important contribution to the profession and to the preparation of new teachers.

Principle #1: Teacher candidates need opportunities to learn and engage in equitable practices.

Principle #2: Teacher candidates need opportunities to observe high quality teaching.

Principle #3: Teacher candidates need opportunities to engage with high quality mentors.

Principle #4: Teacher candidates are best supported when their placements and their university-based program (STEP) are a mutually valued partnership.

Finding/selecting placements based on the principles

While the selection of a placement is a thoughtful, multi-layered process, we do not have a list of "requirements" that each site must meet. Rather, we employ the four guiding principles described above to assist us with the important task of selecting placements. These principles are based on:

- research on teacher development and mentoring
- our program design, including content-based Curriculum & Instruction courses.

In order to find placements for our teacher candidates that reflect a balance of these guiding principles, we spend time getting to know the work of teachers in the diverse communities neighboring Stanford's campus. Our original contact with a potential placement site is the result of various interactions/exchanges, including, but not limited to:

- a school principal contacts STEP and expresses interest in having a few of his/her teachers serve as cooperating teachers;
- a current cooperating teacher recommends a friend/colleague to STEP as a possible cooperating teacher;
- a STEP colleague recommends a teacher/school as a possible placement site.

Following the original recommendation or referral, STEP's director of clinical work and other STEP faculty/staff visit the school site. The purpose of this visit is primarily to obtain an overall sense of the school and classroom culture. During this visit, we employ connoisseurship and collect information (in this case, by observing teachers at work with students as well as with their peers, by observing the classroom environment, by looking at student work, by talking with teachers, students, and school administrators). We consider that information in light of the guiding principles stated above. In some cases, a second visit will be made to gather additional information. When we find a teacher whose practices reflect our guiding principles, we consider that placement for our current and/or future teacher candidates.

Building Relationships Between Teacher Candidate and Cooperating Teacher

The following is a list of suggestions for building a relationship as a cooperating teacher and teacher candidate. Establishing a professional relationship and getting to know each other personally will create a strong basis for your work together. The suggestions below are meant to open conversations and establish expectations prior to the start of school.

Get to Know Your Teacher Candidate:

- What teaching, tutoring, or coaching experience do you have?
- What skills, talents, interests, languages and cultural understandings are you bringing?
- What goals do you have for this placement, and for their program?
- What are your professional growth goals?
- What do you think are your strengths in teaching and planning, and in what areas might you need extra support (e.g. good at reading aloud, keeping materials organized is difficult)? Are you comfortable letting me know when they are ready to take on more, or do you want me to take the lead and push you forward? Are you comfortable jumping in, or do you want time to just observe?
- How are you feeling about getting started?

Starting out together:

- Discuss the activities planned for teachers before the opening of school. Decide together which the candidate will attend.
- Invite teacher candidate to help you set up your room.
- Talk about your approach to classroom leadership and management. What are the norms you will be working to establish in your class during the first weeks?
- Talk about your teaching plans for the first few weeks.
- Together, outline appropriate and active roles for the candidate to take on, starting on the first day, and how candidate will receive support to be comfortable in those roles (i.e. working with individual students, taking role, pre- assessments).
- Schedule a weekly meeting/planning time.

Introduction to the Classroom:

- Introduce the teacher candidate to colleagues in the school and put the teacher candidate's name on the door.
- Introduce the teacher candidate to parents through a letter home or as an item in the school newsletter.
- Encourage the candidate to introduce him or herself to the class.
- Create a space for the teacher candidate, such as a special desk or table for the teacher candidate's use.
- Discuss student information such as test scores and IEPs, and let the teacher candidate know what information is available.
- Introduce routines and procedures for getting students through the school day (e.g. attendance, bathroom).

Getting to Know Your Cooperating Teacher:

- What grade levels you have taught?
 - What special trainings you have had that you find to be valuable?
 - What skills, talents, interests, languages and cultural understandings do you bring to your classroom?
 - What goals do you have in supporting a STEP teacher candidate?
 - What are your professional growth goals?
 - How you are feeling about getting started?
 - Agree to ask each other questions when in need of clarification.
-
- Figure out a regular communication system. Consider time needs of the cooperating teacher and the learning needs of the candidate (time to ask questions, hear you talk about planning/curriculum/ instruction/ students, get feedback on their teaching). Be creative about how to make it work for both you, such as an interactive journal, email, lunch breaks, after school
 - Talk about how you use your lunch and before & after school times, and come to a mutual understanding about what the candidate can do during those times (work/plan/relax with you or be self-directed).
 - Talk about your willingness to be flexible and to say no when needed. Candidates can feel nervous about asking you to accommodate them.

Introduction to the School Community:

- Take a tour of the school building.
- Discuss the characteristics of the school neighborhood
- Provide details around school enrollment, demographics, class size, etc.
- Articulate the rules, regulations and practices of the school; share the school's mission, as well as the services and programs that are provided.
- Outline staff procedures for yard duty, photocopying, study hall, supplies, audio-visual equipment.
- Discuss the level of parent-involvement at the school (e.g. volunteer programs, organizations)
- Share policies around emergencies, confidentiality, reporting.

Graduated Responsibility: Principles and Practices

Graduated responsibility supports the professional growth of teacher candidates by combining long-term experience in a clinical setting, incremental expansion of the candidate's teaching role, and individualized support from a cooperating teacher and a supervisor. Graduated responsibility insures that guidance from experienced teachers shapes each candidate's development, and it also allows the cooperating teacher and supervisor to share and refine their own practice. This structure encourages candidates to merge theory and practice in authentic ways by trying out ideas learned in university coursework and building a wealth of practical experience. Over time each candidate experiences an increasing sense of ownership for the teaching and learning in the placement classroom.

Principles of Graduated Responsibility

1. Shared practice allows for an ongoing exchange of ideas about student learning.

As co-practitioners, the cooperating teacher and the teacher candidate frequently and systematically engage in conversations about student learning. The cooperating teacher and university supervisor help the candidate understand the guiding principles behind a teacher's decisions regarding planning, instruction, and assessment. The quantity of time devoted to these discussions remains consistent throughout the year, though the focus of these discussions will shift as the candidate takes on greater responsibility, becomes more competent in certain aspects of teaching, and identifies new areas for growth.

2. Support for the candidate evolves throughout the year according to targeted areas for professional growth.

The candidate, the cooperating teacher, and the supervisor jointly identify areas of growth for the candidate, and the cooperating teacher and supervisor tailor their support to match those needs. They recognize that the candidate's development will not be linear but will ebb and flow as the candidate does more of the planning, instruction, and assessment. The candidate is responsible for using the feedback of the cooperating teacher and supervisor to make progress on his or her professional goals.

3. Each candidate experiences an individual process of professional growth.

Graduated responsibility honors each candidate's unique developmental trajectory as a novice teacher. Therefore, independent student teaching begins when the time is right, not at a pre-determined point during the school year. If a candidate may not be ready in time to fulfill the requirements for the duration of the independent student teaching period, then the supervisor and/or cooperating teacher will identify this concern in time to develop an alternative plan for the candidate.

Graduated Responsibility in Practice

This section suggests ways in which the principles of graduated responsibility might be enacted throughout the year in the relationship among the candidate, the cooperating teacher, and the supervisor. These descriptions are not meant to be prescriptive; rather, they provide suggestions about how each person's role might evolve over time. The guidelines assume that reflection is an ongoing part of the candidate's work and is a consistent focus of the conversations the candidate has with the cooperating teacher and supervisor about teaching and learning.

Early in the Year

Planning: The cooperating teacher is the primary architect of the unit and lesson plans and spends time discussing the design of these plans with the candidate. The cooperating teacher articulates and explains the learning goals and assessment plan and provides a rationale for the activities selected to support student learning. Over time the cooperating teacher gives the candidate responsibility for designing increasingly complex learning segments, leaving time to review the candidate's plans before they are implemented. The supervisor supports the candidate and cooperating teacher in establishing a strong collaborative relationship.

Instruction: The candidate initially observes the cooperating teacher's instruction, paying particular attention to student learning, and the cooperating teacher models a variety of pedagogical practices. The candidate and cooperating teacher reflect together on the outcomes of these lessons as the cooperating teacher shares the thinking behind particular instructional decisions. In addition, the candidate actively participates in classroom routines, such as taking roll, collecting assignments, and working with small groups and individual students. The candidate soon takes responsibility for short learning segments, such as introducing a lesson, giving instructions, or facilitating a brief discussion. The supervisor observes some of these learning segments and, together with the cooperating teacher, focuses the candidate's attention on specific aspects of effective teaching.

Assessment: The candidate and cooperating teacher review student work together and discuss its strengths and weaknesses. The candidate records student responses when observing the cooperating teacher teach, after which they interpret this data together. With the guidance of the cooperating teacher and supervisor, the candidate designs and implements pre-assessments prior to a new unit of instruction. The candidate, cooperating teacher, and supervisor discuss how this information informs subsequent planning and instruction.

Communication with Families: The candidate attends parent conferences (including IEP and SST meetings) and Back-to-School events when possible. The cooperating teacher models communication with families and shares relevant school policies. The candidate makes positive phone calls home and may complete a home visit. The cooperating teacher and candidate co-write a letter to families to introduce the candidate's role in the classroom.

Moving Forward

Planning: The cooperating teacher and candidate continue to co-plan, with the candidate taking more responsibility for the design of particular lessons rather than drawing primarily on the cooperating teacher's lesson plans. The cooperating teacher and supervisor provide many of the resources for planning (texts, ideas, etc.) and offer feedback, but the candidate also begins to experiment with his/her own ideas, some of which will correspond to what s/he is learning in university coursework.

Instruction: The candidate implements learning segments of increasing length and complexity, which leads to the delivery of entire lessons and, in time, sequences of related lessons. With the support of the cooperating teacher and supervisor, the candidate tries a variety of instructional strategies, such as direct instruction, discussion, group work, and student-centered activities. The supervisor and cooperating teacher help the candidate negotiate the challenges of taking on more responsibility and balancing multiple aspects of the teaching role.

Assessment: The candidate and cooperating teacher read anchor assignments together to norm expectations for feedback, after which the candidate takes responsibility for responding to student work. The cooperating teacher reviews these responses and helps the candidate refine his/her formative feedback. The candidate also begins to develop and select assessments independently. The cooperating teacher and supervisor help the candidate to analyze whole-class assessments and then to use this information to modify instruction and address the needs of individual students.

Communication with Families: With the support of the cooperating teacher, the candidate increases communication with families, including calls and e-mails in support of students who may be struggling. When possible, the candidate continues to be present for meetings with parents and guardians.

Independent Student Teaching

Planning: The candidate has primary responsibility for planning. Drawing on what s/he has learned from both university coursework and experience in the field, the candidate hones his/her ability to organize instruction over several weeks. The cooperating teacher and supervisor continue to be key resources by keeping the candidate mindful of relevant curriculum standards, helping the candidate to anticipate scheduling issues in the school calendar, and providing feedback about the long-range planning.

Instruction: The candidate takes responsibility for all instructional time, using a variety of methods to meet student needs. The cooperating teacher and supervisor continue to provide regular feedback on the candidate's instruction. The cooperating teacher moves in and out of the classroom and occasionally supports the candidate's instruction by facilitating small groups or working with individual students as needed.

Assessment: The candidate takes primary responsibility for all assessments of student learning, keeping the cooperating teacher continuously informed about student progress and using the guidance of the cooperating teacher and the supervisor to refine his/her assessment practices.

Communication with Families: The candidate assumes responsibility for keeping families informed about student progress and may develop new ways to involve families in student learning. The candidate may initiate parent conferences and may also participate in a student study team meeting.

Graduated Responsibility Across Two Placements

STEP Elementary teacher candidates always have two placements during the academic year, and STEP Secondary teacher candidates occasionally change placements mid-year. In order to prepare for Independent Student Teaching in the second placement in winter/spring, the candidate will participate in a mini Independent Student Teaching for three to five days during the fall placement. Candidates enter a new placement with a wealth of experience and knowledge learned in their first setting. At the same time, it can take time to acclimate to changes in grade level, school, curricular focus and/or student population. Below are some ideas for how to begin in a new placement in ways that utilize the candidate's strengths and provide opportunities for continued growth, while allowing time for the candidate to find his/her place in the new classroom. The integration plans for the winter/spring placements can also support the candidate's transition into a new environment.

- Conduct a mini Independent Student Teaching in November/December for three to five days.
- Schedule a three-way meeting with the candidate, cooperating teacher and supervisor to discuss the candidate's strengths and learning goals in order to formulate a plan for the first few weeks of the placement.
- Capitalize on the strengths of the candidate, but also recognize that the new placement is a new context. For example, the candidate might teach learning segments in areas that feel comfortable to individuals or small groups.
- Allow ample time for the teacher candidate to get to know the students. Consider how the candidate might work with individuals or small groups.
- Plan for time to discuss class norms, the curriculum covered in the year to date and future learning.

Independent Student Teaching in STEP

The period of independent student teaching is an essential component of STEP in that it provides the teacher candidate with the opportunity to integrate the core tasks of teaching: diagnosis of student strengths, interests, and needs, planning, instruction, and assessment of learning, and to solidify his/her identity as a professional educator. The cooperating teacher and university supervisor support the candidate in this process. After a significant period of co-teaching, the candidate takes primary responsibility for planning and implementing lessons, assessing student learning, and communicating with families about student progress while continuing to have access to feedback, resources and support from the cooperating teacher and supervisor.

When does independent student teaching take place?

Secondary candidates begin independent student teaching during winter quarter and continue in that capacity until the end of the academic year. Because graduated responsibility honors each candidate's unique developmental trajectory, independent student teaching begins at a different time for each candidate. The university supervisor and cooperating teacher agree on a timeline that makes sense for each candidate based on his or her strengths and performance as a developing teacher.

Elementary candidates will complete a mini Independent Student Teaching (three to five mornings) in the fall. In the beginning of November, the University Supervisor, Cooperating Teacher, and Teacher Candidate will begin to discuss how the candidate will gradually increase responsibility for the morning instruction to allow for a mini Independent Student Teaching in December.

Elementary candidates will also complete ten days of independent student teaching during a three-week window in spring quarter. In mid-March the university supervisor, cooperating teacher, and teacher candidate begin to discuss how the candidate will gradually increase ownership of classroom activities to allow for a seamless transition into independent student teaching.

Once the cooperating teacher and university supervisor have determined that the candidate is ready to begin independent student teaching, the candidate must submit to STEP the "Advancement to Independent Student Teaching" form. The cooperating teacher, university supervisor, director of clinical work, and program director indicate their approval by signing the form.

How do the cooperating teacher and university supervisor support independent student teaching?

To support the candidate as he/she takes on a more independent role in the classroom, the cooperating teacher, university supervisor, and candidate are encouraged to develop a schedule for independent student teaching, determining when the cooperating teacher leaves the classroom and whether any special events take place during independent student teaching. The cooperating teacher continues to provide the support that the candidate needs to plan curriculum and conducts routine observations of the candidate's

teaching. The two continue to meet and reflect on a regular basis. Ongoing communication among the cooperating teacher, university supervisor, and candidate ensures that concerns can be addressed in a timely manner and that the candidate gets the support needed both in the field placement and in university coursework.

To what extent can the candidate make his/her own choices during independent student teaching?

Independent student teaching provides the opportunity for candidates to design and try out instructional activities to support any previously established curriculum for that period of time. The candidates are encouraged to seek support from their cooperating teachers, supervisors and course instructors in designing the curriculum and instruction during independent student teaching. Independent student teaching affords the candidate increased freedom to make choices around classroom structures, instructional strategies, and curriculum design, while building on prior instruction and maintaining routines that support student learning. An important goal for independent student teaching is to strike a balance among the local context, the needs of the students, and the interests and developmental needs of the candidate.

To what extent is the cooperating teacher present in the classroom during independent student teaching?

Although the candidate assumes responsibility for the classroom during independent student teaching, the cooperating teacher remains the "teacher of record" throughout the academic year. Cooperating teachers are encouraged to move in and out of the classroom during independent student teaching, allowing the candidate plenty of time in charge of the classroom. The cooperating teacher remains accessible for questions and support. If certain classroom activities benefit from the presence of two teachers (e.g., reading groups, labs), the cooperating teacher can support a consistent learning experience for the students by remaining in the room and continuing to assume a role in these activities.

What role do candidates have in the secondary placement during independent student teaching? (STEP Secondary only)

During the academic year the candidate gradually assumes more responsibility in both the primary and secondary placements. Whereas the candidate eventually "takes over" the primary course during independent student teaching, he/she remains in the role of co-teacher in the secondary course. In this capacity, the candidate engages in planning, instructing, assessing, and reflecting alongside the cooperating teacher, who maintains responsibility for the secondary placement through the end of the year.

STEP Observation Cycle

The university supervisor completes three formal observations of the teacher candidate each quarter. The purpose of these observations is to build a record of the candidate's growth as an educator, to help he/she develop a variety of ways to reflect on practice, and to connect that reflective process to the California Standards for the Teaching Profession.

1. The Lesson Plan

The teacher candidate consults with the cooperating teacher to identify learning goals that fit well with the flow of the class and with his/her knowledge of the students. The candidate designs a lesson plan to support the students' progress toward these goals. The candidate designs the lesson plan on his/her own, but is encouraged to solicit input from the cooperating teacher, university supervisor, course instructors, and peers. Early in the year the lesson will be fairly short (10-20 minutes), but over time the observed lessons will grow longer. Eventually the candidate will create lesson plans that span the entire class period. While there is no standard format for the lesson plan, it should include the following elements:

- Relevant state-adopted, national, or other local standards used within your teaching context
- Learning objectives associated with the standards
- Formal and informal assessments
- Instructional and learning tasks
- Instructional resources and materials

2. The Planning Conference

In the planning conference the candidate confers with the university supervisor about the lesson plan. The supervisor will provide feedback to help the candidate revise the plan and prepare for the lesson. The supervisor's expertise is especially useful in anticipating what students may find challenging, refining particular strategies that have been chosen for the lesson, and contemplating potential pitfalls in classroom management. Together, the candidate and university supervisor will also select a focus for the observation. For example, the supervisor might track students' participation throughout the lesson or note the kinds of questions that the candidate is asking the students (see Observation Tools).

3. The Observation

The supervisor observes the candidate implement the lesson he/she has designed. The supervisor will collect data to help the candidate see aspects of the lesson that are often difficult to notice as a new teacher. The supervisor will typically sit in an unobtrusive place in the room while taking notes, although he or she may occasionally circulate around the room to observe how students are engaging with the work. The supervisor may also arrive early or stay beyond the designated time of the lesson in order to understand of the broader context of the classroom.

4. The Debrief Conference

During the debrief conference the candidate discusses the observed lesson with the supervisor and, when possible, the cooperating teacher. This debrief should be scheduled as soon as possible after the lesson's completion so that the discussion is rooted in the specific details of what happened. The debrief will help the candidate to celebrate the strengths of emerging practice, identify areas for improvement, and reflect on the experience of facilitating the lesson. The lesson will never go exactly as envisioned, but the moments that feel most uncertain or unclear often provide the richest

opportunities for the candidate's own learning. For observations that are videotaped the supervisor and the candidate will have their formal debrief after the candidate has viewed the video and written their analysis.

5. The Reflection

Within 48 hours of the debrief session, the candidate submits a written reflection to the supervisor. Writing this reflection pushes the candidate to examine practice in a more sustained, deliberate way. It also demonstrates the candidate's growing ability to reflect on their practice independently. This reflection does *not* merely recap what happened during the lesson or editorialize about a particular issue.

The following questions may help candidates to select a focus for the reflection:

- a. Choose a moment during the lesson that surprised or challenged you. What key issue(s) arose at that moment? What have you learned by reconsidering that moment after the fact?
- b. If you were to implement the lesson again, what would you do differently, and what would you repeat? Why? What did you notice that would lead you to alter your approach next time?
- c. What was an important decision or adjustment that you had to make during the lesson? What influenced your decision-making in the moment? Looking back on that moment, what were the advantages and drawbacks of what you decided to do?
- d. What have you learned about your students during this lesson? What have you learned about yourself? What evidence of student learning can you identify, and how does that evidence influence what you will do next?
- e. Discuss a specific fear or uncertainty that emerged for you during the lesson. What prompted it? How did it influence your teaching? What can you learn from it?
- f. What connections can you find between what is happening in your classroom and what you are learning in your coursework? As you consider these connections, what questions have emerged as a result of this lesson? How do you answer those questions right now?

These prompts are not intended to provide an exhaustive menu of options. As the year progresses, the candidate will discover many new questions and ideas. Over time the candidate should, in consultation with the supervisor, pursue his/her own questions in the written reflections.

The reflection should:

- Offer careful analysis of specific moment(s) that arose during the lesson
- Provide concrete details to support that analysis
- Discuss how the analysis of this lesson will influence your future practice
- Make specific reference to the California Standards for the Teaching Profession
- Be 500-750 words in length
- Employ the polished, edited writing of a professional educator

If the supervisor does not feel that the written reflection has met the above criteria, the candidate will be asked to revise and resubmit it.

STEP teacher candidate:

Cooperating teacher:

Supervisor:

Placement:

Observation #:

Date and time:

Class period and name:

1. [Lesson plan](#)
2. [Planning conference](#)
3. [Observation notes](#)
4. [Debrief](#)
5. [Reflection](#)

Teacher candidate, placement site, course:

Lesson topic: _____ Lesson date: _____

(Lesson template suggestion below; if your CT/department/site uses another, adapt as necessary, but make sure it includes

- Relevant state-adopted, national, or other local standards used within your teaching context
- Learning objectives associated with the standards
- Formal and informal assessments
- Instructional and learning tasks
- Instructional resources and materials)

UNIT, CONTEXT, ESSENTIAL QUESTION

RELEVANT STATE-ADOPTED, NATIONAL, OR OTHER LOCAL STANDARDS

LEARNING OBJECTIVES
Students should know/be able to...

INSTRUCTIONAL RESOURCES AND MATERIALS

LESSON: INSTRUCTIONAL AND LEARNING TASKS			
Time	Students...	Teacher...	Formal and informal assessment

IDENTIFIED LANGUAGE DEMANDS	PLANNED LANGUAGE SUPPORTS
Function:	
Vocabulary:	
Discourse or syntax:	

ASSESSMENT (FORMATIVE AND SUMMATIVE)

ACCOMMODATIONS AND MODIFICATIONS, SCAFFOLDING

RELEVANT THEORIES

(attach lesson materials: copy/paste a handout, or link/screenshot slides, etc.)

2. PLANNING CONFERENCE

Date:

Lesson checklist:

- Are the content goals/objectives/standards specified on lesson plan?
- Are the language goals/objectives/standards specified on lesson plan?
- Are the goals specified for/accessible to students (do they know the goals/criteria for their learning)?
- Is there an opening question/activity?
- Is timing clear? Are there clear transitions?

Possible questions for discussion:

- What has led up to this lesson? How is it building on previous lessons? How does it meet student needs?
- What is the transition to the lesson?
- How does it connect to students' experiences and interests?
- What about models, manipulatives, visuals, and how to manage them?
- What about physical space?
- What about instructional strategies or grouping structures?
- How will you know students learned the objective (sources of evidence)?
- How will students know if they are successful?
- How will students make their thinking public? How will you ensure they are talking/listening respectfully?
- What thinking/activities will move them towards your stated goals?
- Are there any opportunities for self-assessment?
- What is an appropriate way to close? What happens after this lesson physically (transition)?

Potential hurdles/solutions to consider:

- What do you predict students may find difficult or confusing, both in terms of content and language? How does your plan address these potential areas of confusion? How do you plan to assist the students?
- What students are you most concerned with? How might this observation help you think about them?
- What extensions or challenges might you provide for students who are ready for them?

How might this observation support you?

3. OBSERVATION NOTES

Date:

Observation focus:

Possible debrief questions:

- How did the lesson go? What worked best?
- What surprised you about the lesson?
- Did the students reach the objectives you set? How do you know?
- What did the students find difficult/confusing? Were you able to address these areas of confusion?
- What instructional strategies worked? Which did not work as well?
- What about extension/differentiation, language demands, student behavior?
- How did lesson closure go?

Strengths and highlights:

Outcomes of and evidence for the identified focus:

Next steps (instructional and/or candidate professional growth) *What do the students need next? What would you do differently if you were to teach the lesson again? What goals for professional growth did the lesson prompt? How will you move forward with working on these goals?*

Questions/clarifications/dilemmas:

LESSON: INSTRUCTIONAL AND LEARNING TASKS

Time	Students...	Teacher...	Formal and informal assessment

5. TEACHER CANDIDATE REFLECTION

Date:

Within 48 hours of the debrief session, submit a written reflection of 2-3 pages that does not merely recap what happened during the lesson. The following questions may help you select a focus for the reflection:

- *Choose a moment during the lesson that surprised or challenged you. What key issue(s) arose at that moment? What have you learned by reconsidering that moment after the fact?*
- *If you were to implement the lesson again, what would you do differently, and what would you repeat? Why? What did you notice that would lead you to alter your approach next time?*
- *What was an important decision or adjustment that you had to make during the lesson? What influenced your decision-making in the moment? Looking back on that moment, what were the advantages and drawbacks of what you decided to do?*
- *What have you learned about your students during this lesson? What have you learned about yourself? What evidence of student learning can you identify, and how does that evidence influence what you will do next?*
- *Discuss a specific fear or uncertainty that emerged for you during the lesson. What prompted it? How did it influence your teaching? What can you learn from it?*
- *What connections can you find between what is happening in your classroom and what you are learning in your coursework? As you consider these connections, what questions have emerged as a result of this lesson? How do you answer those questions right now?*

For a video reflection, use the edTPA prompts for your subject area.

Day Time

STANFORD TEACHER EDUCATION PROGRAM - ELEMENTARY CLINICAL WORK AGREEMENT

Educators learn by studying, doing and reflecting, by collaborating with other professionals, by looking closely at pupils and their work, and by sharing what they see. The development of theoretically sound professional practice cannot occur either in college classrooms separated from engagement in practice or in school classrooms separated from knowledge and theories that result from rigorous scholarship. Professional learning in both schools of education and P-12 schools should provide opportunities for research and inquiry, for trying and testing, and for talking about and evaluating the results of learning and teaching. The intersection of theory and practice occurs most productively when questions arise in the context of real work-in-progress, in schools and with pupils, informed by research and disciplined inquiry. The cooperating teacher and university supervisor provide direct support for the candidate as he/she works simultaneously in the two contexts.

This document describes the responsibilities of the **teacher candidate**, the **cooperating teacher**, and the **university supervisor** as they work in the clinical setting. The three work together to support the candidate's growth as a novice teacher. Each teacher candidate teaches under the direct and continuing classroom supervision of an assigned cooperating teacher who is a credentialed, experienced member of the school faculty and is legally responsible for the class(es) assigned to the teacher candidate. The university supervisor is also an experienced, credentialed teacher who helps to bridge the teacher candidate's classroom experience with STEP coursework. All three parties sign this agreement.

The **California Standards for the Teaching Profession (CSTPs)** and **Teacher Performance Expectations (TPEs)** provide a framework for assessing and documenting the teacher candidate's progress throughout the program. These standards inform the formal observations conducted by the university supervisor and the quarterly assessments completed by the cooperating teacher and university supervisor. In addition to the CSTPs, the candidates are also held to the professional standards and expectations as outlined in the following documents: the **National Education Association (NEA) Code of Ethics** and the **Family Education Rights and Privacy Act (FERPA)**.

Graduated Responsibility

The structure of the STEP student teaching experience relies on the concept of **graduated responsibility**. In addition to observing instruction, the teacher candidates play an active role early in the placement, supporting individual students and small groups and implementing small learning segments with the support of the supervisor and cooperating teacher. Over time candidates extend their responsibility for planning, instruction, and assessment in the placement, taking ownership of learning segments that increase in length and complexity. Graduated responsibility ensures that guidance from experienced teachers shapes each candidate's development, and it also allows the cooperating teacher and supervisor to share and refine their own practice. This structure encourages candidates to merge theory and practice in authentic ways. Graduated responsibility prepares candidates for a two-week period of **independent student teaching**, which occurs within a pre-determined window in the spring. During this time, the cooperating teacher ensures that the teacher candidate has ample guidance and support.

The following documents support graduated responsibility:

- **Building Relationships Between Teacher Candidate and Cooperating Teacher**
- **STEP Integration Plans (Fall, Winter/Spring)**
- **Graduated Responsibility in STEP**
- **Independent Student Teaching Overview**

The Joint Work of the Cooperating Teacher and Teacher Candidate

Together the cooperating teacher and the candidate move through all phases of the **teaching cycle**: planning, instructing, assessing, and reflecting. Throughout the year the two explore and practice the different strategies that can be utilized within each phase. The following are suggestions for ways the cooperating teacher can support the growth in each area:

Planning:

- Co-plan lessons, units, curriculum, and assessments with teacher candidate throughout the academic year.
- Discuss rationale for the focus and sequencing of the curriculum.
- Articulate the intended educational goals and expected outcomes for the lessons, units and/or curricular areas.
- Explain strategies to diagnose and address specific student needs.

Instructing:

- Co-teach with teacher candidate according to the teacher candidate's readiness
- Model a variety of teaching strategies for the teacher candidate.
- Provide opportunities for the teacher candidate to practice different teaching strategies.
- Demonstrate how to manage everyday teaching tasks such as taking role, giving directions, and handling paperwork.

Assessing:

- Discuss and model different assessment techniques (e.g., tests, performance assessments, peer review, self-assessment, journals, portfolio, etc).
- Examine student work to identify to what extent the learners reached the educational goals and to guide future planning.

Reflecting:

- Reflect together about daily lessons and encourage the teacher candidate to reflect on the effectiveness of the teaching technique(s) for the learners.
- Provide multiple opportunities for candidates to self-assess their teaching
- Make thinking visible and share your thoughts about the outcome of a lesson.
- Emphasize the teacher candidate's strengths and give constructive, specific feedback about areas for improvement.
- Discuss strategies and help set goals for the teacher candidate to address specific areas for improvement.

Graduated responsibility allows for candidates to develop at different rates throughout the year and within each phase of the teaching cycle. For example, a teacher candidate may be quite successful at utilizing different instructional strategies but still need considerable support in developing assessments. By mentoring the teacher candidate in the ways described above, the cooperating teacher will support the teacher candidate in taking on more responsibility in the classroom. The candidate and cooperating teacher will continue to plan and debrief on a regular basis. By mid-spring, the teacher candidate should already have experienced significant responsibility for components of the curriculum. The cooperating teacher will continue to be a presence and provide support around the needs of individual students, curriculum planning, and the progress of the class.

The cooperating teacher, the university supervisor, STEP's Director of Clinical Work, and Director determine the appropriate time for the candidate to begin independent student teaching. **A minimum of two weeks of independent teaching is required.** For more information, see the handbook document entitled **Independent Student Teaching in STEP.**

Responsibilities of the Cooperating Teacher

- Meet with teacher candidate and university supervisor (**three-way meeting**) at the beginning of the placement and at the end of each quarter
- Review the STEP handbook

- Observe the candidate's teaching to collect evidence for quarterly assessment (use suggested observation tools found in the STEP handbook). Make your thinking visible before, during, and after class.
- Maintain proactive, ongoing communication with the supervisor about the candidate's progress. The supervisor and cooperating teacher together monitor the candidate's graduated responsibility trajectory. Should concerns exist, the supervisor should be notified immediately to determine how best to support the candidate. If necessary, the STEP Director of Clinical Work may provide additional guidance.
- Complete three quarterly assessments and upload them to Watermark/ Tk20. (**Note:** The teacher candidate will not receive a grade for Seminar until each quarter report is received, and all reports for the year must be received before he or she can graduate.)
- Discuss the content of the quarterly assessment with the teacher candidate and set future learning goals.

Responsibilities of the Teacher Candidate

The teacher candidate will maintain a professional presence while at the school site, communicating and relating with colleagues, students, and families.

- Maintain prompt and regular attendance and conscientious out-of-class preparation for his or her teaching responsibilities
- Maintain up to date records of course plans, unit plans, and lesson plans; abide by school policies; meet administrative due dates;
- Be present and at the school site for about 20 hours per week for the full academic year; be prepared to fulfill his or her obligations in the teaching assignments.
- Visit and observe other classrooms on a regular basis as detailed in the integration plan.
- Email absences for any reason to the cooperating teacher, university supervisor, Director of Clinical Work, and STEP Director
- Request absences for special circumstances in writing from cooperating teacher, Director of Clinical Work, and STEP Director.

Videotaping

As part of the teacher candidates' work for Stanford University they are required to videotape their teaching. The videotapes are kept by the student and by Stanford University and may be shared with other teacher educators and other teacher candidates to help them analyze and improve their teaching. Neither the students' names nor the name of the school will be used in any reports or presentations of the video. A form will be sent to each parent for them to indicate if they are willing to have their child appear in the video.

Substitute Teaching

STEP teacher candidates may serve as substitute teachers for their cooperating teachers only, but not until the university supervisor has completed one formal observation, and the cooperating teacher, university supervisor, and STEP director of clinical work have given their written approval. Under certain non-routine circumstances, teacher candidates who have completed all of their subject matter competence requirements and have attained daily independent teaching status may be allowed to accept a paid long-term substitute teaching position if the position offers specific supports required by STEP and if the advisory team determines that the teacher candidate is prepared to meet students' needs adequately. The position will be discussed with the cooperating teacher(s), university supervisor, school administration, and STEP teacher candidate before a final decision is reached. Final approval is given by STEP.

Extracurricular Activities

The teacher candidate should not receive assignments to extracurricular activities from the school. If the schedule permits, the STEP teacher candidate will attend a minimum of one department meeting and one faculty meeting per semester, parent- teacher conferences, and back-to-school events. STEP encourages teacher candidates to voluntarily participate in school activities if time permits. However, STEP teacher candidates should not be required to attend meetings that conflict with classes at Stanford.

Responsibilities of the University Supervisor

The university supervisor plays a vital role as a bridge between the two contexts, a mentor, and an evaluator of the candidate's progress. As they pertain to the field placement, the supervisor's responsibilities are to:

- Facilitate three-way meetings at the beginning of the placement and at the end of the quarter to discuss quarterly assessment and set goals
- Using the integration plan as a framework, communicate with the cooperating teacher and teacher candidate about how the principles of graduated responsibility are being enacted in the placement.
- Conduct at least nine formal observations during the academic year (one per quarter is videotaped)
- Complete quarterly assessment each quarter
- Facilitate information stream between Stanford and the cooperating teacher regarding candidate's progress and needs.
- Report any concerns to STEP's director of clinical work immediately

If you need to be in contact with STEP regarding any of the above or STEP Teacher candidate concerns, please call or email:

STEP Elementary Integration Plan – Fall Quarter

This plan has two strands: 1) integrating the teacher candidate into the activities of classroom teaching, and 2) integrating the teacher candidate into the placement school and its wider community. The actual timings and arrangements for integration are determined by the cooperating teacher, the teacher candidate, and the university supervisor and will take into account their individual needs and circumstances.

Integration into Classroom Teaching

The guiding principle of learning to teach is assuming **graduated responsibility** from observing to co-teaching to independent student teaching. Graduated responsibility supports the professional growth of teacher candidates by combining long-term experience in a clinical setting, incremental expansion of the candidate’s teaching role, and individualized support from a cooperating teacher and a supervisor.

August/September	October	November/December
<p>Creating the learning environment</p> <ul style="list-style-type: none"> Cooperating teacher introduces teacher candidate as co-teacher to students and parents. Cooperating teacher and teacher candidate discuss classroom norms and routines. Teacher candidate observes cooperating teacher’s teaching, paying attention to student learning and various pedagogical approaches. Cooperating teacher and teacher candidate discuss assessment and grading philosophy/policy. Teacher candidate examines student work with cooperating teacher. Candidate begins actively participating in classroom routines and teaching (taking roll; working w/ small groups and independent students; co-plan lessons and units; co-plan and implement brief learning segment, such as giving instructions, conducting a pre- assessment, or facilitating a discussion.) <p>Building relationships with students (questions for the teacher candidate): Who are your students?</p> <ul style="list-style-type: none"> What is the range of previous academic achievement, home languages, and range of language proficiencies, racial/ethnic/socio- economic background? What are the special educational needs of your students? What are your students’ interests and hobbies? <p>Establishing relationships: The cooperating teacher, teacher candidate, and university supervisor will:</p> <ul style="list-style-type: none"> set up 3-way meeting and discuss how the 3-way relationship supports the candidate’s learning. establish consistent time for cooperating teacher and candidate to collaborate and debrief. review and sign Clinical Work Agreement. discuss teaching cycle (planning, implementing, assessing, reflecting) and the concept of learning segment. discuss procedure and expectations for formal supervisor observations. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> expand length of learning segment: co-plan, implement, and review somewhat longer teaching/learning segments. explore cooperating teacher’s curricular resources and begin to take note of other options. increase time spent on examining student work with cooperating teacher. begin providing oral and written feedback to students. begin grading in consultation with cooperating teacher take on some responsibility for planning a series of lessons in Language Arts or Math. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> further expand teaching/learning segment, using new instructional strategies and experimenting with ideas learned in coursework. increase role in joint planning. increase parts and numbers of lessons taught independently and co-taught with CT work with cooperating teacher to norm expectations for student feedback and increase responsibility for grading. implement a mini Independent Student Teaching string of three to five mornings in Language Arts, Math, and/or Science. participate in a three-way meeting with Supervisor and winter/spring Cooperating Teacher.

Integration into the School and the Community

Teacher candidates need to acquire a comprehensive understanding of the school as an organization and the community that it serves. To better understand the context of their teaching and their students' learning experiences, teacher candidates will engage in specific activities across the school and in the wider community.

August/September	October	November/December
<p>Getting to know the school: The teacher candidate will:</p> <ul style="list-style-type: none"> • become familiar with school personnel and policies re: attendance, behavior, emergencies. • learn about school enrollment and demographics. • get school calendar and find out about school-wide events. • observe at least two teachers at the same grade level. • attend department/faculty/professional development meetings when possible. <p>Getting to know the community: The teacher candidate will:</p> <ul style="list-style-type: none"> • attend back-to-school events. • attend parent-teacher conferences when possible, including SST and IEP meetings. • if appropriate, co-write a letter with cooperating teacher introducing the candidate's role in the classroom. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> • observe at least two teachers in other grade levels. • visit special ed dept., ESL/ELD/SDAIE classes. • observe students in other subjects (including art, music, health, and other electives) and participate in the class when possible. • visit other schools to observe accomplished teachers and discuss observations in weekly supervisory group. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> • make positive phone calls or emails home. • make home visits if possible.

STEP Elementary Integration Plan – Winter/Spring Quarter

This plan has two strands: 1) integrating the teacher candidate into the activities of classroom teaching, and 2) integrating the teacher candidate into the placement school and its wider community. The actual timings and arrangements for integration are determined by the cooperating teacher, the teacher candidate, and the university supervisor and will take into account their individual needs and circumstances.

Integration into Classroom Teaching

The guiding principle of learning to teach is assuming **graduated responsibility** from observing to co-teaching to independent student teaching. Graduated responsibility supports the professional growth of teacher candidates by combining long-term experience in a clinical setting, incremental expansion of the candidate’s teaching role, and individualized support from a cooperating teacher and a supervisor.

January	February/March	April/May/June
<p>Creating the learning environment</p> <ul style="list-style-type: none"> Cooperating teacher introduces teacher candidate as co-teacher. Cooperating teacher and teacher candidate discuss classroom norms and routines. Teacher candidate observes cooperating teacher’s teaching, paying attention to student learning and various pedagogical approaches. Cooperating teacher and teacher candidate discuss assessment and grading philosophy/policy. Teacher candidate examines student work with cooperating teacher. Teacher candidate actively participates in classroom routines and teaching by taking roll, and working with small groups and independent students. The teacher candidate plans and implements increasingly longer learning segments, utilizing varied strategies. <p style="text-align: center;">Building relationships with students (questions for the teacher candidate):</p> <ul style="list-style-type: none"> Who are your students? What is the range of previous academic achievement, home languages, and range of language proficiencies, racial/ethnic/socio-economic background? What are the special educational needs of your students? What are your students’ interests and hobbies? <p>Establishing relationships: The cooperating teacher, teacher candidate, and university supervisor will:</p> <ul style="list-style-type: none"> set up 3-way meeting and discuss how the relationship supports the candidate’s learning. establish consistent time for cooperating teacher and candidate to collaborate and debrief. review and sign Clinical Work Agreement. discuss teaching cycle (planning, implementing, assessing, reflecting) and the concept of learning segment. discuss procedure and expectations for formal supervisor observations. discuss experiences in fall placement and set goals for winter/spring. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> expand length of learning segment: co- plan, implement and review somewhat longer teaching/learning segments. use new instructional strategies and experiment with ideas learned in coursework. explore cooperating teacher’s curricular resources and begin to take note of other options. increase time spent examining student work with cooperating teacher and take more responsibility for grading. begin to develop and select assessments independently. introduce strategies for working with English language learners. 	<p>Independent Student Teaching takes place during a three-week window in May. During spring quarter, the teacher candidate should take increasingly more responsibility for all aspects of the teaching cycle in preparation for this two-week window. The candidate will:</p> <ul style="list-style-type: none"> take responsibility for the majority of daily and unit planning try out various teaching strategies, discuss outcomes with cooperating teacher and supervisor, and make necessary adjustments. take responsibility for all aspects of assessment (pre/post, formative, summative). plan for inclusion of standardized tests into spring curriculum. plan and engage in classroom and school-wide end-of-year activities. determine how best to say good-bye to students.

Integration into the School and the Community

Teacher candidates need to acquire a comprehensive understanding of the school as an organization and the community that it serves. To better understand the context of their teaching and their students' learning experiences, teacher candidates will engage in specific activities across the school and in the wider community.

January	February/March	April/May/June
<p>Getting to know the school: The teacher candidate will:</p> <ul style="list-style-type: none"> become familiar with school personnel and policies re: attendance, behavior, emergencies. learn about school enrollment and demographics. get school calendar and find out about school- wide events. observe at least two teachers at the same grade level. attend department/faculty/professional development meetings when possible. <p>Getting to know the community: The teacher candidate will:</p> <ul style="list-style-type: none"> attend back-to-school events. attend parent-teacher conferences when possible, including SST and IEP meetings. if appropriate, co-write a letter with cooperating teacher introducing the candidate's role in the classroom. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> observe at least two teachers in other grade levels. visit special ed dept., ESL/ELD/ SDAIE classes. observe students in other subjects (including art, music, health, and other electives) across the year and participate in the class if possible. visit other schools to observe accomplished teachers and discuss observations in weekly supervisory group. make positive phone calls or emails home. make home visits if possible. 	<p>The teacher candidate will continue activities begun previously and:</p> <ul style="list-style-type: none"> keep families informed about student progress, including phone calls or emails in support of students who may be struggling. initiate parent conferences. participate in SST and IEP meetings. explore new ways to involve families in student learning. celebrate the end of the year with your class and colleagues!

Teacher Candidate Quarterly Assessment

Teacher candidate

(Last, first): _____

Assessor

(Cooperating Teacher/Supervisor): _____

Grade level/Course name: _____

Quarter

(Autumn/Winter/ Spring): _____

The Stanford Teacher Education Program utilizes the California Standards for the Teaching Profession (CSTPs) and the California Commission on Teacher Credentialing adopted Teacher Performance Expectations (TPEs) in support of the program's design, curriculum, and assessments, including assessments of developing clinical practice in student teaching placements, such as the *STEP Quarterly Assessment* instrument.

California Standards for the Teaching Profession (CSTPs):

<https://www.ctc.ca.gov/docs/default-source/educator-prep/standards/cstp-2009.pdf>

Teacher Performance Expectations (TPEs):

https://www.ctc.ca.gov/docs/default-source/educator-prep/standards/adopted-tpes-2016.pdf?sfvrsn=8cb2c410_0

The scale below reflects expected growth in the teacher candidate's practice during the STEP year. We aim to describe a continuum of practice from the performance of a novice teacher candidate to the performance of a well prepared and highly skilled, yet still beginning teacher.

Moving from level 1 to level 4, the descriptors show how practice develops in terms of consistency, organization, integration, initiative, independence, effectiveness, and professionalism. The goal is for the teacher candidate to be at level 4 on all of the standard elements by the end of the academic year, though we typically see a range of performance across the elements with the overwhelming majority of ratings at level 3 or level 4.

The candidates' growth and development rests significantly on the candid, professional, and clear evaluation and communication of their performance by the supervisor and cooperating teacher.

Level 1: The novice teacher candidate's performance shows signs of development. Yet, typically it is inconsistent and variable in achieving anticipated outcomes. Small segments of independent and successful practice are performed regularly. The candidate's performance requires strong guidance and extensive support, and relies substantially on the cooperating teacher's plans, assessment tools, practices and guidance.

Level 2: The teacher candidate's performance is steady and episodes of independent and successful practice are more frequent and longer in duration. The candidate's performance may require regular guidance and support, and continues to rely on suggestions and feedback from the cooperating teacher and supervisor. The candidate's practice may still be variable in achieving anticipated outcomes.

Level 3: The candidate's performance is generally consistent and reliable. Performance is more commonly linked to anticipated outcomes. The candidate successfully organizes multiple, related lessons. The candidate's performance indicates readiness to assume increased responsibility for daily instruction with continued support from a cooperating teacher, university supervisor or mentor.

Level 4: The candidate's performance is typically consistent, purposeful, and well-timed. The candidate successfully organizes series of related instructional segments over significant periods of times. Performance is more firmly linked to anticipated outcomes. The candidate's performance indicates readiness to assume the regular, daily responsibilities as a teacher of record.

OTHER Mark this column if...

- (1) you have *insufficient evidence* to evaluate the candidates' performance at this time, or
- (2) you have *special concerns* or *questions* about the candidate's performance on this standard at this time.

List 3 to 5 strengths the teacher candidate has demonstrated this quarter:

Teacher Candidate Quarterly Assessment

List 1 to 2 areas for growth on which the teacher candidate might focus in the near term:

Standard 1: Engaging and Supporting All Students* in Learning

*Defining “all students.”

These standards support the creation of classroom communities and curricula in which students with varying backgrounds, learning profiles, strengths, interests, needs, and abilities are engaged and challenged as learners. The use of the term “**all students**” throughout these documents reflects a commitment to the education of the full spectrum of students and the need for teachers to continually strengthen their understanding of students, families, and communities.

Check the box that best describes the level of performance on each element of the standard:	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	OTHER <i>Insufficient Evidence or Concerns</i>
1.1 Using knowledge of students to engage them in learning					
1.2 Connecting learning to students’ prior knowledge, backgrounds, life experiences, and interests using culturally responsive instructional practices					
1.3 Connecting subject matter to meaningful, real-life contexts					
1.4 Using a variety of instructional strategies, resources, and technologies to meet students’ diverse learning needs					
1.5 Promoting critical and creative thinking through inquiry, problem solving, asking and answering questions, and reflection					
1.6 Monitoring student learning, motivation, and engagement, and making appropriate adjustments to instruction while teaching					

As appropriate, provide further comments and/or specific evidence supporting your ratings:

Standard 2: Creating and Maintaining Effective Environments for Student Learning

Check the box that best describes the level of performance on each element of the standard:	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	OTHER <i>Insufficient Evidence or Concerns</i>
2.1 Promoting social development and responsibility within a caring community where each student is treated fairly and respectfully					
2.2 Creating physical or virtual learning environments that promote student learning, reflect diversity and multiple perspectives, and encourage constructive and productive interactions among students					
2.3 Establishing and maintaining inclusive learning environments that are physically, intellectually, and emotionally safe, and enable all students to learn					
2.4 Creating a rigorous learning environment with high expectations and appropriate support for all students					
2.5 Developing and maintaining high standards, and clearly communicating expectations, for individual and group behavior					
2.6 Employing classroom routines, procedures, norms, and supports for positive behavior to ensure a climate in which all students can learn					
2.7 Using instructional time to optimize learning					
2.8 Providing positive interventions and access to resources to support students' social-emotional development and learning needs.					

As appropriate, provide further comments and/or specific evidence supporting your ratings:

Standard 3: Understanding and Organizing Subject Matter for Student Learning

Check the box that best describes the level of performance on each element of the standard:	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	OTHER <i>Insufficient Evidence or Concerns</i>
3.1 Demonstrating knowledge of subject matter and academic content including the adopted California State standards and curriculum frameworks					
3.2 Applying knowledge of the range and characteristics of student development and proficiencies to ensure student understanding of subject matter					
3.3 Organizing curriculum to facilitate student understanding of the subject matter and development of academic language					
3.4 Utilizing instructional strategies that are appropriate to disciplinary and inter-disciplinary learning, including provision of multiple points of entry and opportunities for multiple ways to demonstrate understanding					
3.5 Using and adapting resources, technologies, and standards-aligned instructional materials, including adopted materials, to make subject matter accessible to all students					
3.6 Addressing the needs of the full range of English learners using assessment data and research-based instructional approaches to provide equitable access to learning					
3.7 Addressing the needs of students with special needs by providing appropriate supports and accommodations, including those outlined in students' IEP, IFSP, ITP, and 504 plans, to provide equitable access to learning					
3.8 Modeling and developing digital literacy by using technology to engage students, support their learning, and promote digital citizenship					

As appropriate, provide further comments and/or specific evidence supporting your ratings:

Standard 4: Planning Instruction and Designing Learning Experiences for All Students

Check the box that best describes the level of performance on each element of the standard:	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	OTHER <i>Insufficient Evidence or Concerns</i>
4.1 Planning instruction using knowledge of students' academic readiness, language proficiency, cultural and socioeconomic backgrounds, and individual development					
4.2 Establishing and articulating goals for student learning					
4.3 Developing and sequencing long-term and short-term instructional plans to support student learning					
4.4 Planning instruction that incorporates appropriate strategies to meet the learning needs of all students					
4.5 Adapting instructional plans and curricular materials to meet the assessed learning needs of all students					
4.6 Promoting student success by providing opportunities for students to understand and advocate for strategies that meet their individual learning needs and assist students with specific learning needs to successfully participate in transition plans (e.g., IEP, IFSP, ITP, and 504 plans.)					

As appropriate, provide further comments and/or specific evidence supporting your ratings:

Standard 5: Assessing Students for Learning

Check the box that best describes the level of performance on each element of the standard:	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	OTHER <i>Insufficient Evidence or Concerns</i>
5.1 Applying knowledge of the purposes, characteristics, and uses of different types of assessments, in the design and administration of classroom assessments					
5.2 Collecting and analyzing assessment data from a variety of sources to document student learning over time					
5.3 Reviewing data, both individually and with colleagues, to monitor student learning					
5.4 Using assessment data to establish learning goals and to plan, differentiate, and modify instruction					
5.5 Involving all students in self-assessment, goal setting, and monitoring progress					
5.6 Providing students with opportunities to revise work based on assessment and feedback					
5.7 Using available technologies to assist in assessment, analysis, and communication of learning to students and families					
5.8 Using assessment information to share timely and comprehensible feedback about progress toward learning goals with students and their families					

As appropriate, provide further comments and/or specific evidence supporting your ratings:

Standard 6: Developing as a Professional Educator

This standard requires a slightly different scale. The elements of this standard describe the responsibilities and expectations of becoming a member of a professional community. The scale is designed to acknowledge the potential for growth in regards to professional identity and responsibility over the course of the candidate’s pre-service experience. **The goal is for the teacher candidate’s performance to “meet professional expectations and demonstrate readiness to competently and successfully assume the responsibilities of the teaching profession” by the end of the academic year.**

Check the box that best describes the level of performance on each element of the standard:

	FALL AND WINTER QUARTERS		SPRING QUARTER ONLY
	<i>Performance needs attention and support.</i>	<i>Performance is developing appropriately.</i>	<i>Performance meets professional expectations and demonstrates readiness to competently and successfully assume the responsibilities of the teaching profession.</i>
6.1 Reflecting on teaching practice in support of student learning			YES / NO
6.2 Establishing professional goals and engaging in continuous and purposeful professional growth and development			YES / NO
6.3 Collaborating with colleagues and the broader professional community to support teacher and student learning			YES / NO
6.4 Working with families to communicate expectations and support student learning			YES / NO
6.5 Engaging local communities in support of the instructional program			YES / NO
6.6 Managing professional responsibilities to maintain motivation and commitment to all students			YES / NO
6.7 Demonstrating professional responsibility, integrity, and ethical conduct, including the responsible use of social media and other digital platforms and tools			YES / NO

As appropriate, provide further comments and/or specific evidence supporting your ratings. Comments are required if performance needs attention and support (fall and winter) or as not fully meeting professional expectations (spring).

Standard 6: Developing as a Professional Educator

Experiences afforded teacher candidates in the following CSTPs vary widely. Briefly describe this candidate's opportunities for learning in these areas and their developing ability to meet the standard.

6.4 Working with families to communicate expectations and support student learning.	6.5 Engaging local communities in support of the instructional program.

Summary Pages

1. PROFESSIONAL GROWTH PLANS (complete at the end of EVERY quarter)

***This section should be completed as part of the three-way conversation among the Candidate, Supervisor and Cooperating Teacher.*

After reflecting on the work of the past quarter, we agree that the candidate should focus on standard number(s) _____ in the following ways:

Summary Pages

2. MID-PROGRAM REVIEW (complete at the end of AUTUMN and WINTER quarter) OVERALL ASSESSMENT of the candidate's current performance:

- Appropriate performance for this time of year
- Adequate performance, with some minor concerns (elaborate below)
- Performance is of serious concern and requires immediate attention (elaborate below)

Supervisor/CT Comments:	Teacher candidate comments:
Signature of Supervisor/CT: _____	Date: _____
Signature of Teacher Candidate: _____	Date: _____

Summary Pages

3. SPRING QUARTER SUMMARY REVIEW (complete at the end of SPRING quarter only)

Please indicate your assessment of the candidate's readiness to assume the professional responsibilities as a teacher of record in her/his own classroom:

- The candidate's performance indicates a readiness for entry into the profession.
- The candidate's performance indicates a readiness for entry into the profession, with some minor concerns.
- The candidate's current performance is of serious concern and requires further development.

Supervisor/CT Comments:

Teacher candidate comments:

Signature of Supervisor/CT: _____ Date: _____

Signature of Teacher Candidate: _____ Date: _____

Summary Pages

INDUCTION PLAN

Complete at the end of SPRING quarter only, looking ahead to the FALL when the graduate becomes the teacher of record. This plan is a portable document archived by STEP and provided to the candidate for transmission to the clear/induction program.

**This section should be completed as part of the final three-way conversation with the graduate/candidate, supervisor and cooperating teacher. The supervisor will upload the induction plan when it is completed, and the graduate/candidate, cooperating teacher and supervisor will electronically sign it.*

Plans for Professional Growth

After reflecting on the work of the past year, we agree that the new teacher should focus on standard number(s) _____ in the following ways:

Recommendations for Professional Support

The following supports will be useful in fostering the new teacher's growth and ongoing professional development:

Signature of Supervisor: _____ Date: _____

Signature of Cooperating Teacher: _____ Date: _____

Signature of Teacher Candidate: _____ Date: _____

Observation & Mentorship Resources

The documents provided in this section are designed to support the formal and informal mentorship provided by the university supervisor and the cooperating teacher for the teacher candidate. University supervisors are required to complete three to four formal observations of the candidate each quarter, using the documents provided here. **The supervisor and candidate submit the following documents to STEP as record of this formal observation:**

- Lesson Plan
- Planning Conference Notes
- Observation Notes
- Record of Debrief Conference
- Candidate reflection with supervisor notes
- Revised Reflection (if required)

Cooperating teachers are encouraged to familiarize themselves with these documents and participate in the planning conference or debrief conference whenever possible.

The other resources in this section support the teacher candidate's ever-deepening and broadening reflective analysis throughout the year. Cooperating teachers and supervisors can take advantage of these resources as they engage in conversations with the teacher candidate about his/her development in different stages of the teaching cycle.

Additional resources in this section:

Observation Planning Conference Overview

Overview of Classroom Observation Tools

- Basic Observation Notes
- Selective Scripting Observation Notes
- Seating Chart Observation Notes

Overview of Classroom Observation Tools

A supervisor or cooperating teacher provides a set of experienced eyes with which to see what unfolds in a classroom. The collection of specific observation data can provide detailed information to explore in the debrief conference, and the experienced teacher can often highlight aspects of the lesson that might otherwise go unnoticed by the candidate.

There are a variety of ways to structure classroom observation notes. Each of the following tools is most useful when the candidate and the observer have together identified a clear focus for the observation. If the candidate has already considered what he or she wants to explore in an analysis of the lesson, then the observer is better able to capture evidence that provides the basis for a rich discussion. However, additional topics for exploration during the debrief may also emerge from the observation. The observer attempts to strike a balance between honoring the pre-determined focus and attending to other things that emerge during the lesson.

Basic Observation Notes:

This tool is helpful in capturing a broad spectrum of classroom events. It is designed to distinguish between evidence of what transpires in the classroom and the observer's ideas, interpretations, and/or opinions. While the line between the two can sometimes be unclear, the rule of thumb is that evidence is that which is observable: student behavior, descriptions of class activities, language used by the teacher and students. Interpretations are the observer's thoughts or inferences about what happened. For example, "Tony knocked over a chair and walked out of the room" is evidence, while saying that "Tony seems angry and frustrated" would be the observer's interpretation.

The observer might also pose questions within the observation notes or identify areas for potential discussion during the debrief conference. These questions and comments should, however, be distinguished in some way from the descriptive observational notes. The basic observation notes tool is adaptable to any focus of an observation.

Selective Scripting:

This tool allows the observer to record selective conversations and/or observations during the course of the lesson and is especially useful for collecting data on specific teacher behaviors and how these behaviors seem to influence what happens in the classroom. It is useful in capturing dialogue among the teacher and students, descriptions of student behavior, and aspects of the classroom dynamics.

To do selective scripting, record what the teacher says in the first column and what students say in the second. It is difficult to capture entire conversations in the moment, so focus on getting enough of the sentence to record the gist so that you can use the information in your debrief. It is helpful to have a narrow focus for a selective scripting observation so that you can more easily identify moments during the observation when you should be recording teacher and student talk.

Selective scripting might be useful for collecting information about:

- what the teacher emphasizes (positively and negatively).
- how the teacher expresses expectations of students and communicates learning goals.
- how the teacher facilitates students' connections between prior knowledge and new learning.
- how the teacher gives directions and how students respond.
- how the teacher frames the purposes and directions for each segment of the lesson.
- what types of questions asked by the teacher and the students, as well as the types of responses that these questions elicit.
- how a teacher checks for understanding.
- how a lesson is differentiated, adapted, or modified.
- how the teacher uses student responses to guide instruction.
- who speaks in the class and in what context (whole class, small group, etc.)

Seating Chart:

Draw the seating arrangement of the class and label it with student names, gender, language and/or special needs. This kind of observation tool can support the teacher in noticing patterns of the interactions and comments of both teacher and students, as well as their movements and behaviors.

Seating charts are useful for tracking:

- which students are doing what at regular time intervals.
- which students and groups of students are participating and at what points in the lesson this participation occurs.
- which students are talking and when.
- where the teacher directs questions.
- how the physical environment facilitates student interactions and access to materials.
- how the teacher moves around the room and interacts with individual students and/or groups of students.
- how the teacher's interactions vary from student to student in terms of quality, duration, and focus.
- which students move around the room and when.
- the extent to which individual students are engaged in the content and processes of the lesson.

California Standards for the Teaching Profession

Planning Conference Overview

Each observation cycle begins with a planning conference. Since planning is an essential component of instruction that supports student learning, the supervisor plays a critical role in helping the candidate become more skillful in this area. Building on the candidate's initial ideas about the goals and activities of the lesson, the supervisor helps the candidate clarify and refine how to engage students with the content in ways that connect to students' strengths, interests, and needs. Over time the nature of these planning conversations will change as the candidate takes on more responsibility in the classroom and begins to grapple with more complex issues of teaching and learning. The planning conference also assists the supervisor, candidate and/or cooperating teacher in identifying a focus (or foci) for the observation. Evidence of student learning and other specific aspects of the lesson are discussed in the **debrief conference**.

Listed below are a variety of questions that might frame a planning conference. This document is intended to be a resource to guide the kinds of questions a supervisor might ask, but each supervisor must select the questions most pertinent to the particular context and the individual teacher candidate's needs and interests.

What are the goals, the overall plan and the context of the lesson?

- Tell me about this lesson and its context. What are your goals for student learning? What are the concepts you are focusing on?
- What is your plan for this lesson so far?
- What has led up to this lesson? How is it building on previous lessons? How does it meet student needs?
- Where does it fit in the curriculum standards?
- What tools/materials are needed?
- Where would you like some assistance with this lesson?

Where does this lesson fall in this unit and why? What is the relationship between this lesson and the broader curriculum?

- How are these concepts and/or skills addressed at other points in the unit?
- In thinking about the broader goals of the lesson sequence or unit, what goal(s) will be the primary focus of this lesson?
How does this lesson move students toward that goal?

What prior knowledge do students bring to this lesson? What might they find challenging about it?

- What relevant concepts have already been explored with this class? With what results?
- What strategies does this lesson build on? How?
- How might you connect this concept to students' experiences and interests?
- What do you predict students may find difficult or confusing? What misconceptions do you anticipate? How does your plan address these potential areas of confusion?
- What ideas might students begin to express and what language might they use?

How does the lesson help students reach the goals?

- What ideas might students begin to express and what language might they use?
- What opening question/activity do you have in mind?
- How might you close the lesson?
- How might you describe the directions and purposes for each task or activity within the lesson?
- What models, manipulatives, or visuals might you use? What is your plan for managing these materials?
- What thinking and activities will move students toward the stated goals?
- In what ways will students make their thinking and understanding public?
- What grouping structure(s) will you use and why?
- How might you ensure that students are talking with and listening to one another about the academic content in mutually respectful ways?
- How might you highlight and clarify the big ideas of the lesson?
- How do you plan to assist students whom you predict will have difficulties?
- What extensions or challenges might you provide for students who are ready for them?
- How much time do you predict will be needed for each part of the lesson? What might make the transitions within the lesson clear and efficient?

How will you know if students have met the lesson's goals?

- How will you know if students are successful in meeting the learning goals for this lesson?
- What sources of evidence will provide information about student learning?
- What might the students say or do that will demonstrate their learning?
- How will students become aware of the goals and criteria for their learning?
- How will students know if they are successful?
- To what extent are there opportunities for student self-assessment in this lesson or lesson sequence?

How will the observation of this lesson best support your growth as a teacher?

- What are you curious to explore about teaching and learning in this observation?
- What have you been working on in your teaching? How might this observation support your growth in this area?
- What students most intrigue or concern? How might this observation help you think about those students in particular?
- What do you want to know about how students experience this lesson?

Observation focus: _____

Strengths and highlights of the class:

Outcomes of and evidence for the identified focus:

(i.e. student learning, classroom management, assessment)

Outcomes:

Evidence:

Next steps (instructional and/or candidate professional growth):

- What do the students need next?
- What would you do differently if you were to teach the lesson again?
- What goals for professional growth did the lesson prompt?
- How will you move forward with working on these goals?

Questions/clarifications/dilemmas:

Summer Explorations Program
San Miguel Elementary School

2018

STANFORD TEACHER EDUCATION PROGRAM
SUNNYVALE SCHOOL DISTRICT

Program Goals

About 350 students, entering grades 1-5, 13 Cooperating Teachers and 22 STEP Teacher Candidates will be participating in the joint STEP-Sunnyvale summer program.

The goals for the elementary school students are:

- to develop students' confidence in themselves as learners
- to improve literacy and numeracy skills
- to strengthen problem solving and critical thinking skills
- to provide opportunity for students to experience a variety of instructional strategies
- to provide multiple opportunities for students to read (literature, poems, plays), write, speak, sing, dance, and solve problems

The goals for the STEP teacher candidates are:

- to observe ways to develop classroom community
- to get to know and to work closely with elementary school students and teachers
- to collaborate with experienced teachers and begin learning how to address the California Standards for the Teaching Profession
- to document and assess students' growth and development in literacy and numeracy

Structure of the Summer School

The Sunnyvale/STEP Summer Explorations Program at San Miguel Elementary School is organized into two main blocks of concentrated literacy and numeracy development, along with oral language through the arts and PE. The focus of the summer program is to foster a love of learning by developing students' confidence in themselves as learners as well as strengthening their problem solving and critical thinking skills. San Miguel students will begin classes on Monday July 2nd, and their last day of class is Friday, July 27th. Classes meet Monday-Friday from 8:00am-12:15pm. STEP teacher candidates will plan before school from 7:45-8:00am, Tuesday from 12:15-12:45pm and on Thursday from 12:30-2:15pm. They will also attend a weekly supervisory meeting from 12:30-1:30pm on Wednesdays with STEP staff.

Role of the STEP teacher candidates at San Miguel

All San Miguel students will have two large blocks of class time each day focusing on a Project Based Learning unit to strengthen literacy and numeracy. Two STEP candidates will be assigned to a teacher for all blocks. The STEP candidates will be expected to help with supervisory duties during snack/ break time. Specific duties will be assigned by Karen Currie, Summer School Principal at San Miguel Elementary School. A tentative time schedule for classes is listed below.

	Grades 1/2	Grade 3	Grade 4/5
Teachers arrive at school at	7:45am	7:45am	7:45am
Prep Time/Yard Duty Block	7:45-8:00am	7:45-8:00am	7:45-8:00am
A:	8:00-10:00am	8:00-10:10am	8:00-10:20am
Brunch:	10:00-10:25am	10:15-10:40am	10:15-10:40am
Block B:	10:25-12:15pm	10:40-12:15pm	10:40-12:15pm

Teacher candidates contribute to student growth and development by:

- working intensively with individuals and small groups of students.
- focusing on literacy and math strategies, and encouraging artistic and oral language development.
- getting to know their students as individuals.
- supporting the cooperating teacher in planning, implementing, and assessing learning.
- reflecting together with the cooperating teacher.

There will be specified opportunities for the STEP students to observe or visit other classrooms during their time at summer school. STEP will give the teachers advanced notice on how many teacher candidates to expect, as well as keep the number of visitors/assistants balanced throughout the summer.

Notes to the Cooperating Teachers

STEP candidates will be assigned to a given class. Daily experiences in the classroom, debriefs and Thursday planning sessions will provide many of them with their first experiences as teachers. It would be helpful to note, as much as possible, their performances and interactions with students on a daily basis, so that specific feedback and encouragement can be provided to them whenever possible. Teacher candidates have been asked to report 15 minutes prior to the start of *each day* to have informal debriefing and organizing sessions with their cooperating teacher. At the end of the summer, the cooperating teachers will be asked to complete an Assessment of Field Placement Experience and Participation.

Cooperating teachers can support the growth and development of teacher candidates by:

- Making your thinking visible. Please include the teacher candidates in daily conversations about goals for students, lesson plans & activities, and debrief to assess how the class is progressing.
- Providing timely and specific feedback to the teacher candidates.
- Including teacher candidates as weekly plans and goals are discussed and crafted.
- Modeling effective teaching strategies and positive interactions with students.
- Examining student work together and working as a team in providing oral and written feedback to the students.

Self-Assessment of field placement experience and participation

Sunnyvale/STEP Summer Explorations

Teacher Candidate _____
Last name First name

Cooperating Teacher _____
Last name First name

I. STEP Summer School Goals

The goals for the STEP teacher candidates include the following:

- to get to know and to work closely with elementary/middle school students and teachers
- to collaborate with experienced teachers and begin learning how to address the California Standards for the Teaching Profession and the Teaching Performance Expectations for California teachers.
- to observe, document, and assess students' growth and development in literacy, numeracy, and other subject matter areas

II. Design of this assessment

The following pages ask you to review your summer school experience in relation to several of the California Standards for the Teaching Profession (CSTPs) and the Teaching Performance Expectations (TPEs). Please describe the degree to which you had an opportunity to *learn about, observe, participate in, and practice* each of the pedagogical elements described below, providing specific evidence wherever possible. If you do not have evidence for participation in one or more standard areas, indicate "IE" for Insufficient Evidence.

III. Please describe 3 – 5 of your strengths as a teacher candidate this summer:

IV. Assessment of field placement experience and participation

Standard 1: Engaging and supporting students in learning

	Please describe the degree to which you had an opportunity to <i>learn about, observe, participate in, and practice</i> each of the pedagogical elements described below, providing specific evidence wherever possible.
1.2 Connecting learning to students’ prior knowledge, backgrounds, life experiences, and interests using culturally responsive instructional practices.	
1.4 Using a variety of instructional strategies, resources, and technologies to meet students’ diverse learning needs.	
1.6 Monitoring student learning, motivation, and engagement.	

Standard 2: Creating and maintaining effective environments for student learning

	Please describe the degree to which you had an opportunity to <i>learn about, observe, participate in, and practice</i> each of the pedagogical elements described below, providing specific evidence wherever possible.
2.3 Establishing and maintaining inclusive learning environments that are physically, intellectually, and emotionally safe, and enable all students to learn.	
2.6 Employing classroom routines, procedures, norms, and supports for positive behavior to ensure a climate in which all students can learn.	
Establish and sustain a high level of rapport with students.*	

* Note: This prompt is not one of the CSTPs or TPEs

Standard 4: Planning instruction and designing learning experiences for all students

	Please describe the degree to which you had an opportunity to <i>learn about, observe, participate in, and practice</i> each of the pedagogical elements described below, providing specific evidence wherever possible.
4.1 Using knowledge of students' academic readiness, language proficiency, cultural and socioeconomic backgrounds, and individual development to plan instruction	
4.5 Adapting instructional plans and curricular materials to meet the assessed learning needs of all students.	

Standard 5: Assessing student learning

	Please describe the degree to which you had an opportunity to <i>learn about, observe, participate in, and practice</i> each of the pedagogical elements described below, providing specific evidence wherever possible.
5.2 Collecting and analyzing assessment data from a variety of sources to document student learning over time.	
5.4 Using assessment data to establish learning goals and to plan, differentiate, and modify instruction.	
5.8 Using assessment information to share timely and comprehensible feedback about progress toward learning goals with students and their families.	

Standard 6: Developing as a professional educator

	Please describe the degree to which you had an opportunity to <i>learn about, observe, participate in, and practice</i> each of the pedagogical elements described below, providing specific evidence wherever possible.
6.1 Reflecting on teaching practice in support of student learning.	
6.3 Collaborating with colleagues and the broader professional community to support teacher and student learning

V. Additional Comments (optional)

In STEP, we are continually working to improve and promote our practice as teacher educators. Just as we ask you to reflect upon and assess your practice, we are regularly examining what we can do to improve our teaching and your learning. Additionally, sharing our collective understandings about teaching and learning via our website, other online platforms, and at conferences is important to promote productive educational practices with others. To that end, we ask below for permission to collect samples of your work, along with photos and videos, to help support our ongoing learning, improvement, and sharing of quality teaching and teacher education.

I, _____, give permission for samples of my work in STEP, as well as photographic and/or videotaped images made of me while participating in clinical placement, university courses, meetings, or events, in any manner it deems proper, including, but not limited to research and educational purposes, promotional activities, in print and electronic publications, on its website, in social media, or in multimedia.

I relinquish all rights, title, and interest I may have in the information collected, finished pictures, negatives, slides, digital images and/or copies of any of these for this purpose. I waive the right of prior approval and hereby release STEP from any and all claims for damages of any kind based on this use of said material. I am of legal age and freely sign this release, which I have read and understand.

Signed: _____

Dear Parent(s)/Guardian(s)/Caretaker(s),

As part of my work for Stanford University I am required to videotape my teaching of your daughter's / son's class. The videotapes will be kept by me and by Stanford University. The videos may also be shared with other teacher educators and other teacher candidates to help them improve their teaching. The focus of the video is the teacher and his/her teaching, not the students in the class. However, at times, students may appear on the video and we would like your permission for your son/daughter to take part in the filming as one of the students in this class. Neither your child's name nor the name of the school will be used in any reports or presentations of the video.

A form is attached for you to indicate if you are willing to have your child appear in the video. Your decision about whether or not to allow your child to participate will not affect his/her academic standing or grades. The University requires us to inform you that we foresee no risks to your child from participating in the video.

If you would like more information about the work, please feel free to contact Ira Lit, STEP Elementary Director, at iralit@stanford.edu.

Thank you for your consideration of this request. Again, please contact us if you have any questions or concerns.

Sincerely,

Video Permission Form for the Stanford Teacher Education Program

Please sign and return this form to indicate your permission for your child to participate in the videotaping.

Student name: _____

School/Teacher: _____

I am the parent/legal guardian of the child named above. I have received and read your letter regarding the Stanford University student teacher in my child's classroom and agree to the following:

(Please check the appropriate blank below)

I DO give permission for my child to appear on a video recording and understand my child's name will not appear in any material written accompanying the recording

I DO NOT give permission for my child to appear on the video recording, and understand that he/she will be seated outside of the recorded activities.

Date: _____

Querido(s) Padre(s)/ Tutor(es),

Mi trabajo en la Universidad de Stanford requiere que yo sea filmado/a mientras enseño en la clase de su hijo/a. La Universidad de Stanford y yo nos quedaremos con los videos. También serán compartidos con otros/as estudiantes de la universidad que se preparan para la carrera de maestro, y con sus profesores. Es importante que usted sepa que el video se concentrará en mí y en mis métodos de enseñanza y no en los estudiantes. Sin embargo, puede ocurrir que algún estudiante de la clase aparezca en el video, y por esta razón pedimos su permiso para que su hijo/a tome parte en la filmación. El nombre de su hijo/a y el nombre de la escuela no serán revelados cuando estos videos sean usados en reportes ni en

presentaciones.

En el formulario que sigue, usted puede indicar si quiere que su hijo/a aparezca en el video. Su decisión de que su hijo/a participe o no, no afectará de ninguna manera sus calificaciones en la clase. La universidad también requiere que les informemos que no anticipamos ningún riesgo para su hijo/a asociado con la participación en la filmación.

Si usted quiere más información sobre este proyecto por favor llame a Ira Lit, Director del programa de preparación de maestros, al correo de iralit@stanford.edu.

Agradecemos su consideración de esta petición. De nuevo, si usted tiene cualquier pregunta o duda, comuníquese al teléfono mencionado.

Sinceramente,

Permiso de Filmación para el Programa de Preparación de Maestros en la Universidad de Stanford

Por favor firme y regrese este formulario para indicar su permiso para que su hijo/a participe en las video-grabaciones.

Nombre de hijo/a: _____

Escuela/ Maestro/a: _____

Yo soy el padre/ tutor legal del niño/a nombrado/a arriba. He recibido y leído su carta sobre el/la estudiante maestro/a de la Universidad de Stanford que está en la clase de mi hijo/a y estoy de acuerdo a:

(Favor de marcar uno de los espacios en blanco)

_____ **DOY PERMISO** para que mi hijo/a aparezca en filmación, y entiendo que el nombre de mi hijo/a no aparecerá en ningún material escrito que acompañe la filmación.

_____ **NO DOY PERMISO** para que mi hijo/a aparezca en filmación, y entiendo que el/ella se sentará fuera de las actividades filmadas.

Firma de padre/tutor: _____

Fecha: _____

Video Consent Verification

I, _____ verify that I **distributed and collected** the approved video consent form to the students in the classes that I teach.

I also acknowledge that there were _____ students who are NOT to be videotaped in my class. I have attached a roster with everyone's response to verify their request to be videotaped or not is upheld.

By signing this form, I take responsibility for ensuring that the privacy of all students remains secure, and that any videotaping that occurs in the classroom will not include the aforementioned students.

Signed (Teacher Candidate)

Date

*AFTER YOU HAVE DISTRIBUTED THE CONSENT FORMS TO YOUR CLASS AND COLLECTED ALL RESPONSES, TURN THIS FORM IN (ALONG WITH THE RESPONSES) TO THE CLINICAL WORK MAILBOX.
